# ABOUT US

Morphy Auctions in Lancaster County, Pennsylvania & Las Vegas, Nevada, has become one of the great success stories of the antiques trade. Founded by Dan Morphy in 1997, Morphy's has realized meteoric growth and set numerous world auction records in many categories, while attracting a global following of buyers that grows exponentially with each successive sale.

Our goal is to provide the best overall buying and selling experience for our customers. With one of the largest under-roof auction houses in the country, spanning over 45,000 sq. ft., the building is customized to meet the growing and changing needs of the antiques industry. Upon entering our facility you will notice an inviting customer service area conveniently staffed with full-time, knowledgeable employees and antiques experts who are happy to assist you. Morphy Auctions takes pride in providing you with quality antiques, professional service, and an enjoyable consignment experience.

Morphy Auctions has a team of experts to assess your collection and assist you in every step of the consignment process. Our expert team is highlighted in this brochure and includes specialists from all collecting categories, including: advertising, coin-op, toys, cast iron, dolls, fine and decorative art, firearms, automobiles, plus many more.

With our main headquarters located in Denver, Pennsylvania, our proximity to Philadelphia, New York, Baltimore and Washington, D.C., makes us easily accessible to potential auction bidders and consignors.

Morphy Auctions is grounded in the values of honesty and integrity. We continue to be the discriminating collector's #1 choice when it comes to buying or selling antiques.

# CONSIGNING WITH US

*"We have known and dealt with the Morphy family for the past 25 years. We have always found the whole family helpful and welcoming. Dan is a driving force and energetic personality who will professionally represent your collection in the marketplace. With the close support of his whole family, you can be confident that you and your collection will receive direct personal attention. You will always enjoy a friendly welcome and be assured that you will be treated fairly. The result will be a great auction experience."*

- John & Adrienne Haley, United Kingdom

Morphy Auctions offers a wide range of categories from Tiffany to mechanical banks, specializing in "fresh to the market" collections. We work hard to create a welcoming atmosphere that encourages optimal financial results for our consignors. We are committed to taking the utmost care in handling the items, giving our consignors the personalized attention and dedicated staff support they deserve, and making every auction a high-profile event in every sense of the word. From the extended preview to the prime auction location and professional advertising and marketing campaign, it's easy to see why your collection should be entrusted to the experts at Morphy's.

We never cut corners, and to ensure proper attention is given to each collection, a minimum of four months' lead time is required for all consignments. All consignments are entered into a custom-designed inventory system and auction database in order to ensure proper documentation and inventory tracking. Throughout the entire process, all auction items are fully insured, from the moment we take possession of goods until ownership has transferred on the date of sale.

Morphy Auctions is one of the largest under-roof auction houses, spanning over 45,000 sq. ft. The facility is customized to meet the growing and changing needs of the antiques industry. Our goal is to provide the best overall buying and selling experience for our customers.

The clean, well-lit, fully carpeted and climate-controlled gallery is customized to ensure the ideal atmosphere for the antiques and collectibles housed within. Whether large or small, all of the antiques are properly secured and professionally displayed to maximize their eye appeal.

Attributes of the facility include executive and staff offices, a conference room, holding area for loading/unloading goods, custom-built storage space with a museum-quality rack system, three self-contained photography studios, a black-light room for close-up inspection of auction items and a dedicated shipping and packing area.

The pride of the facility is the stylish auction room, featuring comfortable theater-style seats, a marble floor and decorative tin ceiling with ambient lighting. With technology continually evolving, Morphy's strives to offer state-of-the-art options for bidding and auction participation. The auction room's design features the latest telecommunications, wireless technology and custom acoustics for the best auction experience possible.

Adjacent to the auction room is a sleek and comfortable dining facility equipped with an audio-feed function and windows to enable bidders to monitor the auction activity while dining. The facility also has an outdoor patio area.

Ample parking and all-weather canopy over the front door allow for easy customer deliveries and pickups. Morphy's utilizes a fully enclosed loading/unloading dock with hydraulic lift for larger-scale antiques and tractor-trailer deliveries and pickups. No collection is too large or too small for Morphy Auctions to consider.

# Bidder Terms and Conditions

***We advise all bidders to read the Terms and Conditions of the Sale before bidding with Dan Morphy Auctions LLC and/or its affiliates Morphy Firearms LLC, and Morphy Auctions, Las Vegas collectively referred to below as DMA. Those who bid are bound by those Terms and Conditions of the Sale, as amended by any oral announcement or posted notices, which together form the contract of the sale between the successful bidder (purchaser), DMA and the seller (consignor) of the lot.***

**TERMS OF SALE**
When bidding on any lot offered by DMA, the bidder indicates acceptance of the following Terms of Sale. Any participation in the auction binds you to agreement of these terms whether or not you read or understand said terms.

**CONDITION OF ITEMS**
DDMA makes every effort to accurately describe all items offered in its sales, however all items for sale are "as is," and it is the bidder's responsibility (present or absentee bidders) to determine the exact condition of each item. DMA will not be held responsible for typographical errors. Neither we nor the consignor, make any guarantees, warranties, or representation expressed, or implied, in regard to the property or the correctness of the catalog or other description of the authenticity of authorship, physical condition, size, quality, rarity, importance, provenance, exhibition, literature or historic relevance of the property or otherwise. No statement anywhere whether oral or written, shall be deemed such a guarantee, warranty or representation. Prospective bidders should inspect the property before bidding to determine its condition, size and whether or not it has been restored. The consigner and we make no representation or warranty as to whether the purchaser acquires any reproduction rights in the property. Returns will not be accepted under any circumstances. All items will be available for preview one (1) month prior to the auction.

All items are sold for display purpose. If electrical, mechanical, or other working parts are inoperable, even if working at the time of sale, we are not liable due to the inherent nature of the age of these antiques and items.

**AUTOMOBILES** – These terms do NOT apply to our automobile auctions. To view the terms and conditions for our Automobile Auctions, please go to: www.morphyauctions.com/autoterms.

**FIREARMS** – All firearms transfers will be in strict accordance with all International, Federal, State and local laws. Be sure to check your country, state and local laws before bidding. If you are unable to import, purchase or own a firearm according to your residency laws, do not bid on these items.

- **Modern Firearms** (post 1898) will be noted with a double asterisk (**) at the beginning of the title. These firearms require special processing.

- **Checkout and pickup at our location:**
  - Modern firearms sales to non-licensed bidders who are picking up guns at our location will require the completion of a form 4473 background check. Handgun purchases also require an additional PICS form/ background check for each handgun purchased. This process to fill out forms and obtain a response may take 5-10 minutes.
  - If you are "Denied" by FBI / NICS background check, you will not be able to take possession of the firearm and the firearm will be consigned to the next available firearm auction. Bidder will be blocked from participating in future firearm auctions.
  - Exceptions may take up to 5 days, at which point we will contact the buyer with the "approve" or "deny" response. Upon approval, arrangements can be made to pay and pickup or ship the items.
  - Licensed bidders, i.e. Federal Firearms Licensees or Curios & Relics License holders must present a current signed copy of their license. (C&R licensee purchases must conform to the BATF C&R requirements).

- **Shipping**
  - Non-Residents of Pennsylvania may not pickup modern firearms. They are legally required to be shipped to an ATF licensed FFL dealer within your state of residence for transfer and pickup. You will be responsible for all shipping and transfer costs incurred.
  - Modern Handguns are legally required to be shipped via Priority Overnight.
  - Modern Long Guns are shipped via ground to the dealer.
  - Upon paying for the gun you can contact a licensed dealer to send their FFL to firearms@morphyauctions.com with the paid invoice number notated.

**GAMING DEVICES** - These items may be held for up to 5 business days so the state agencies can verify the purchaser's information. All auction participants are urged to check the legality of possession and/or shipment of gaming devices to their state of residence. Any gaming device purchased at the auction shall be used for the purpose of display or social entertainment within the private home or residence of the buyer and such devices shall not, in any event or manner, be exposed to the public for the purpose of gambling.

**Grading Scale:**
*Near Mint Plus 97% - 100%* *Near Mint 90% - 96%*
*Excellent 80% - 89%* *Very Good 70% - 79%*
*Good Below 70%*

**BIDDING RIGHTS & RESPONSIBILITIES**
The auctioneer will determine the highest bidder. The auctioneer alone has the right to reopen the bidding of an item if deemed necessary due to a dispute. If there is a tie bid between the floor and Internet or absentee bid, the floor bid takes precedence. DMA and its representatives reserve the right to remove those attendees who impede preview and/or the auction. Title to all merchandise shall pass to the highest bidder at the fall of the auctioneer's hammer. The buyer will then assume all risk and full responsibility of the lot purchased once ownership has changed.

**BID INCREMENTS**
*Bid increments listed are a general guideline. Actual increments are at the auctioneer's discretion. If a lot does not receive a bid of 25% of the low estimate, the lot will be passed by the auctioneer.*
$0 - $500.....$25
$500 - $1,000.....$50
$1,000 - $2,000.....$100
$2,000 - $5,000.....$250
$5,000 - $10,000.....$500
$10,000 +.... Auctioneer's discretion

- **ABSENTEE BIDDING** - DMA will accept absentee bids if pre-authorized by mail, fax or through www.morphyauctions.com online. Absentee bidders must use the absentee bid form and clearly mark the lot number, title and maximum bid amount. Absentee bidding forms may be accessed online at www.morphyauctions.com. If there are two (2) identical bids placed on the same item, priority will be given to the first bid received. All bids must be left in increments as explained on our bid form. If a bid is "out of increment," the auctioneer has the right to round the bid up to the next correct increment. Bidders may preview, register and place bids online through our website, www.morphyauctions.com. Absentee and online bids placed through www.morphyauctions.com will be auto charged to the credit card entered 48 hours after the end of the sale. If you wish to pay by another method please contact us within 48 hours after the sale. Seller(s) agree to allow the Auctioneer to accept and execute absentee bids in a competitive manner for potential buyers and under the Morphy Auctions absentee bidding terms and conditions. During the live sale, the auctioneer will execute your absentee bid competitively up to the maximum amount you have indicated.

- **ONLINE BIDDING** - Online bidding through www.morphyauctions.com, Live Auctioneers, and Proxibid may be available; all Terms and Conditions still apply. If there is a tie bid between the internet bidding venues and the floor, the floor bid takes precedence. If a credit card has been provided to one of the online bidding platforms, DMA reserves the right to use and charge the credit card if the winning bidder has not paid via another method by the 7 day term in Payment Terms below. Due to our fast paced auctions and bids coming from floor bidders, phone bidders, internet bidders and absentee bids, the auctioneer has the final word on all item(s) sold. You (the bidder) assume the risk of winning an item online and not having the item actually sell to you. This is due to the final call of the auctioneer and the operator not being able to re-open that lot. Please allow 24-48 hours post auction to receive your official invoice from Morphy Auctions.

- **TELEPHONE BIDDING** - *Requests for phone lines must be received at least three (3) days prior to the auction date.* DMA cannot guarantee phone lines but will make every attempt to accommodate those who wish to participate through that method. Phone lines are provided on a first come first served basis. Please visit www.morphyauctions.com or call 717-335-3435 to request a call from our representatives during the live auction.

**RESERVES**
The majority of our items are unreserved, but occasionally items may carry a moderate reserve. Please note that when a lot carries a reserve, the reserve is usually somewhere below our low estimate. In the case of a reserved item, the seller has authorized the auctioneer to bid on their behalf until the reserve price is reached.

**BUYER'S PREMIUM**
A 20% buyer's premium will be added to all successful bids and is payable by the purchaser as part of the total purchase cost. If payment by cash, check, money order or wire transfer is made within 7 days of the sale a 2% discount may be taken by the buyer. DISCOUNT IS ONLY AVAILABLE IF INVOICE IS PAID WITHIN 7 DAYS from the sale date. Split payments are subject to a 20% buyer's premium if a credit card is used as any form of total payment.

**SALES TAX**
Lots delivered to you, or your representative are subject to all applicable state and local taxes, unless appropriate permits are on file with DMA. Bidder agrees to pay DMA the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, or inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by DMA five days prior to Auction, or tax must be paid; only if such form or certificate is received by DMA within 4 days after the Auction can a refund of tax paid be made. Lots from different auctions may not be aggregated for sales tax purposes.

**PAYMENT**
All merchandise must be paid in full within seven (7) days of the date of the sale. If payment by cash, check, money order or wire transfer is made within 7 days of the sale, a 2% discount may be taken by the buyer. DISCOUNT IS ONLY AVAILABLE IF INVOICE IS PAID WITHIN 7 DAYS from the sale date. Split payments are subject to a 20% buyer's premium if a credit card is used as any form of total payment. Purchases totaling $100,000 or more must be paid within three (3) days of the date of the sale. Call 717-335-3435 to pay your invoice by phone or mail payment to: Dan Morphy Auctions LLC - 2000 N Reading Rd., Denver, PA 17517

*Absentee bids placed through www.morphyauctions.com and Proxibid.com will be auto charged to the credit card entered 48 hours after the end of the sale. If you wish to pay by another method please contact us within 48 hours after the sale.*

*We accept Visa, MasterCard, Discover, American Express, personal checks/ certified checks, wire transfers, money orders, and cash.*

- **CREDIT CARD** - For first time buyers and credit card charges greater than $2,500.00 buyers must complete the bottom portion of the invoice and must specifically sign the acknowledgement of our terms of sale before we will accept payment via credit card. We do offer the convenience of paying automatically by credit card. If you wish have your card automatically charged for all purchases please complete our "Authorization for Automatic Credit Card Use." We have this form available online or upon request. Split payments are subject to a 20% buyer's premium if a credit card is used as any form of total payment.

- **CHECK** - There will be a $30.00 service charge for returned checks. Make checks payable to: Dan Morphy Auctions LLC. DMA reserves the right to hold items paid for by personal or company check until said check clears (14 days). DMA has the right to hold all checks over $2,000.00. Customers who have an established successful buying history with DMA may be exempt from this. We will accept a personal or company check >$2,000 and/or from a first time buyer if you provide a Bank Letter of Credit, available on our website, www.morphyauctions.com.

- **WIRE TRANSFERS** – There will be a $30.00 charge added to all wire transfers less than $2,000.00. Please add this amount to your invoice total before sending a wire transfer.

In the few situations where a successful bidder does not remit payment when due, DMA will proceed with the legal steps necessary to protect its interests and will block the bidder from future auction participation.

**PACKING/SHIPPING**
- It is the bidder's responsibility to take shipping and handlings & insurance costs into consideration when bidding on items.
- To view our packaging and shipping guidelines, visit www.MorphyAuctions.com/shipping

- **BIDDERS PRESENT AND TAKING ITEMS AFTER AUCTION** – Since item liability transfers upon a successful bid, items paid for must be packed, transported and/or removed by the purchaser at his/her own risk after the close of the sale. If any employee or agent of DMA shall pack or transport the merchandise, it is fully at the risk and responsibility and expense of the purchaser. DMA shall not be held liable for any loss or damage that may be caused by the said agent or employee.

- **ITEMS NOT PICKED UP THE DAY OF THE SALE** – Packaging, shipping, and insurance on items will be made available as an added courtesy and cost. Again, if any employee or agent of DMA shall pack or transport the merchandise, it is fully at the risk and responsibility and expense of the purchaser. DMA shall not be held liable for any loss or damage that may be caused by the said agent or employee. All applicable charges will be applied. Shipping will be based on actual costs via FedEx, FedEx Freight, or USPS (best way). Handling and insurance will vary in cost depending on each invoice. All packages will be shipped with insurance. Items will ship seven to fourteen (7-14) business days after payment is received.

- **INTERNATIONAL SHIPMENTS** – DMA has the capability to ship to international bidders. By law, DMA cannot, and will not, declare lesser values for any international purchases and all shipments will include the invoice with purchase totals including the buyer's premium and shipping cost. All international bidders are responsible for knowing their country's laws on importing items and for paying all customs and duties on the items.

- **3RD PARTY SHIPPING** – For any buyers who wish to arrange, or must arrange due to the size of the item, for their own shipping, DMA must be notified at least seven (7) days prior of shipping company name and arrival date and time. Pickup must be scheduled to begin and end within our normal business hours (9am – 4pm, seven days a week). Buyers must arrange weekend pickups in advance with DMA staff, and additional charges may be necessary for overtime. 3rd party shipper must arrive with a copy of the invoice.

- **STORAGE FEE** – DMA will charge a storage fee of $50/week for any items awaiting pickup for more than 30 days.

- **MORPHY AUCTIONS, LAS VEGAS LOCATION SPECIAL COURTESY** – Items purchased at our Las Vegas location may qualify for free shipment on our freight truck to Denver, PA. To be considered for shipping, all item invoices must be paid in full by day 7 after the auction, or they will not be shipped on the truck and shipping charges will then apply. Items will leave Las Vegas approximately 14 days after the auction date. Upon arrival in Denver, PA the buyer must pick items up within 14 days, or a $50/week storage fee will apply. Buyers will be contacted by phone or email when items arrive in Denver, PA. It is the buyer's responsibility to pick the items up here. For packages to qualify for courtesy shipping, at least one piece or all pieces together in a package, must have a dimensional size of more than 130sq inches. Dimensional size is length (the longest measurement) + (height x 2) + (width x 2). For example, a 36" x 36" x 12" package = 36 + (36 x2) + (12 x 2) = 132.

**POST SALE RETURN POLICY**
- DMA hires knowledgeable experts to provide catalog descriptions on the merchandise we sell. Every effort is made to ensure those descriptions are accurate and that they fully disclose any exceptions to condition. Any buyer who has made their payment within the due date of 7 days who wishes to report a problem must notify DMA within three (3) days of receipt of their purchased item. Buyers who have not made their payment within the due date of 7 days may not return any items under any circumstances after 35 days of the auction. No lots purchased by floor bidders (including those bidders acting as agents for others) may be returned. A Return Authorization Number (RA#) must be issued by DMA before you ship anything back to our address. Any items arriving without a return authorization will not be given a refund. The item in question must be shipped with the RA# on the outside and inside of the package, with full insurance, so it arrives at DMA within one week of the aforementioned authorization.

# NOTICE REGARDING TRANSFER OF MODERN FIREARMS

**ALL MODERN FIREARMS WILL BE NOTED WITH A DOUBLE ASTERISK (**) AT THE END OF THE TITLE AND MAY BE PURCHASED AND TAKEN POSSESSION OF USING ONE OF THE FOLLOWING OPTIONS:**

**1. Long Guns (Live Auction Buyer):** Both residents and non-residents may take immediate possession of modern long guns by first filing an ATF form 4473 and completing the PICS background check, then paying for the long gun(s) in full.

**2. Long Guns (Online/Phone Buyer):** Non-resident buyers and resident buyers needing long guns needing shipped, must first pay for the lot(s) won. Upon returning home, arrangements must be made with a local firearms dealer in resident state (local area) to send us a copy of the firearms dealer's FFL license. Upon receipt of license copy, we will package and ship (at buyer's expense; pre-paid) the long gun(s) to the dealer. This is a federal law and must be complied with regardless of what state you reside in.

**3. Handguns (Live Auction Buyer):** Resident buyers may take immediate possession of modern handguns by first filing an ATF form 4473 and completing the PICS background check, then paying for the handgun in full.

**4. Handguns (Online/Phone Buyer):** Non-resident buyers and resident buyers needing handguns to be shipped, must first pay for the lot(s) won. Upon returning home, arrangements must be made with a local firearms dealer in resident state (local area) to send us a copy of the firearms dealer's FFL license. Upon receipt of license copy, we will package and ship (at buyer's expense; pre-paid) the handgun(s) to the dealer. This is a federal law and must be complied with regardless of what state you reside in.

**Special Notes:** Buyers should figure on 5-10 minutes to fill out ATF form 4473 prior to the check-out process. In most cases, the background check process will take 2-3 minutes to approve or deny. Exceptions may take up to 5 days, at which point we will contact the buyer with the "Approve" or "Deny" response. Upon approval, arrangements can be made to pick up or ship firearms.

**Federal Firearms License Holders:** If attending the auction, a copy of your FFL dealer's license will need to be supplied prior to any purchase, and will be kept on file.

**Shipping:** Dan Morphy Auctions will always supply the option to ship merchandise, including firearms. All firearms being shipped, both in-state and out-of-state, will need to be shipped to an ATF licensed FFL dealer. The buyer will choose the dealer and have the dealer supply Dan Morphy Auctions with a copy of their FFL license prior to shipping. The buyer will pre-pay for all shipping charges. All firearms will be shipped by FedEx. Long guns will be shipped FedEx Ground Service and handguns will be shipped FedEx Priory Overnight.

**Read Before Bidding:** Buyer is responsible for making sure firearms purchased are legal in state of residence, and local area. Be sure to check all local laws. Long guns will only be sold to persons 18 years of age, or older. Handgun sales will be limited to persons 21 years of age, or older. Dealers are bound by these minimum age requirements.

**Payment:** All firearms sales need to be paid in full by cash, check, money-order, Visa, MasterCard, or Discover. NO PAYPAL payments will be accepted on firearms (Paypal rules and regulations do not allow firearms payments/purchases).

**State Specific Regulations:**

**Alaska:** No ammunition sales.

**California:** No handguns to CA. No magazines over 10 rounds capacity. No ammunition sales to Los Angeles and San Francisco.

**Colorado:** No magazines over 15 rounds capacity.

**Connecticut:** No semi-automatic rifles. No magazines over 10 rounds capacity.

**Hawaii:** No magazines over 10 rounds capacity. No ammunition sales.

**Illinois:** No firearm sales to Chicago.

**Maryland:** No magazines over 20 rounds.

**Massachusetts:** No ammunition sales. No magazines over 10 rounds capacity. No handguns. No rifles that accept detachable magazines.

**New Jersey:** No semi-automatic rifles. No magazines over 15 rounds capacity. No ammunition sales. No sales of firearms that accept detachable magazines.

**New York:** No semi-automatic rifles. No handgun sales to C&R FFL holders. Handguns to FFL dealers with a state handgun dealers license only. No ammunition sales. No magazines over 10 rounds capacity.

**Washington DC:** No sales of any products.

**No modern firearms will be sold outside of the US.**

Dan Morphy Auctions does not warrant the safety and functionality of any firearm in this catalog. All firearms are sold as collector items. Since all firearms are sold as collector items, they are not tested or warranted by Dan Morphy Auctions. Dan Morphy Auctions encourages the examination of each firearm by a certified gunsmith prior to shooting.

Dan Morphy Auctions reserves the right to deny the sale of a firearm to any buyer.

LOT - 1

LOT - 2

LOT - 3

LOT - 4

**1 - CASED COLT MODEL 1849 POCKET REVOLVER.**
Serial No. 165083. This is a standard Colt Model 1849 Pocket Revolver with all matching numbers including wedge. Standard features include 4" octagon barrel, .31 caliber, five shot, single action, blued finish, case colored frame, varnished one piece walnut grips, with silver backstrap and trigger guard. The metal is basically a soft grey-brown patina with sharp edges, strong factory markings, original nipples, approximately 60% original silver plating on straps, and beautiful grips with light wear. Lock up is perfect. Bore is excellent. The gun is housed in a vintage oak case with orange velvet partitions, included is a vintage UMC cap tin, an unmarked bullet mold, an unmarked eagle powder flask, a key, and four bullets. 1,500.00 - 2,000.00

**2 - MANHATTAN POCKET MODEL REVOLVER.**
Serial No. 23. 4,800 of these revolvers were manufactured between 1858 and 1862. The number 23 can be found stamped on the loading lever, on the underside of the barrel, on the back of the cylinder, and wedge. Standard features include a 4" octagon barrel, varnished two piece walnut grips, blued finish with case hardened hammer and loading lever, engraving on frame and backstrap are standard to this model. This is considered a series one due to the five shot cylinder and ten cylinder stops (all original nipples). The screws are perfect. Barrel retains approximately 60% of the original high polish factory blue starting to plum. There are some minor abrasions around the wedge on right side. Engraved frame is basically a soft grey. Original grips exhibit most of the original varnish, and the name "Hunt" has been carved into the right panel. Strong rifling. Cylinder is basically a soft brown patina. Single action works fine but a little off time. 300.00 - 700.00

**3 - RARE J. WALCH 10 SHOT DBL HAMMER POCKET REVOLVER.**
Serial No. 1772. Approximately 3,300 of these pocket revolvers were manufactured by the New Haven Arms Co. from 1860 to 1862. Oliver Winchester was the president and major stockholder of the company at this time. It is a highly unusual pistol in that it has a 2-1/4" cylinder with five chambers and ten nipples, each cylinder taking a double load. It is chambered for the .31 caliber ball. Features a 3-1/4" octagon barrel and two piece varnished walnut grips. It is a spur trigger single action and has two hammers. It is desirable in that it is unusual and its relation to Winchester. This is an iron framed model of which only 1,000 were manufactured. Barrel markings are fine. All nipples are intact and perfect. Traces of color on the hammer. Original walnut grips are excellent with minor varnish wear. Metal is basically a smooth grey patina. Fully operational. Excellent strong bore. 1,000.00 - 2,000.00

**4 - FINE MARTIALLY MARKED ROGERS & SPENCER REVOLVER.**
Serial No. 3438. The Rogers & Spencer revolvers were manufactured in 1865 in Willow Dale, New York of which approximately 5,800 were made, 5,000 of which were martially marked. The first 1,500 were delivered to the military in April of 1865 and the balance by September of 1865, none of which have ever been recorded as having been issued, at which time the bulk of the guns were sold to the Francis Bannerman Co. to be subsequently sold to the open market through their mail-order catalog. Standard features include 7-1/2" octagon barrel, six shot, .44 caliber, single action, percussion, with blued finish, case colored hammer and lever, and two piece walnut grips. This example is standard in all respects. It has the military inspector "B" on frame and barrel. Matching serial number found on lever, barrel, frame, and cylinder. There is a perfect cartouche on left grip. Single action only. Operates perfectly with a tight lock up and near mint bore. The barrel retains approximately 20% original high polish factory blue with balance turning plum. Cylinder has traces of original blue with the majority being a smooth plum finish. The frame retains approximately 70% of the high polish factory blue with usual flaking. Grips are excellent with no cracks and just average bumps and dents. Traces of color on lever. Overall, an extremely fine early percussion single action .44. 700.00 - 1,500.00

**5 - COLT MODEL 1873 S.A.A. U.S. ARTILLERY REVOLVER.**
Serial No. 3622. The frame of this revolver began life in 1874, second year of Colt single action production, as a standard U.S. issue cavalry model revolver that would have left the factory with a 7-1/2" barrel, blue and case colored finish, walnut grips, in caliber .45 long Colt. Around the turn of the century, cavalry Colts were brought to the Armory, disassembled, usable parts were thrown into bins, barrels were shortened to 5-1/2", and the revolvers were rebuilt and then reissued using a term now accepted by collectors as an "Artillery Model". As such these revolvers will have a mixture of numbers on the parts, as well as various inspectors from different eras. This gun is numbered as follows: frame is 3622, trigger guard is 4451 with an Ainsworth "A" inspector mark, the backstrap is 4451, barrel is stamped with a "P" as well as "H.N." for Henry Nettleton, the loading gate is stamped 542, back of cylinder is stamped "R.A.C." for Reynaldo Carr. No cartouche visible on walnut grips. The hammer is a later replacement. Standard features include a bullseye ejector rod head, 5-1/2" barrel, .45 long Colt caliber, single action, standard finish, and walnut grips. Action exhibits all four clicks and timing is perfect. "U.S." is stamped on left side of frame. Has the screw-in cylinder pin release (black powder), and one line Colt address on barrel. Strong near mint bore. Front sight has not been filed. Markings are strong. Screw heads are perfect. There is a small stamp at the upper left grip as follows "EX45". As to finish, the gun is basically an overall brown-grey patina. The grips are slightly shy to metal, but are free of cracks or chips. Overall a nice, clean artillery model used by the U.S. cavalry throughout the Indian Wars and into the Philippines. 2,000.00 - 4,000.00

**6 - COLT S.A.A. REVOLVER (ANTIQUE).**
Serial No. 33440. This early revolver was manufactured in 1877. It is a standard revolver that left the factory as a 7-1/2" .45 caliber with blued finish and walnut grips. The barrel has been cut to 5-1/4", front sight has been replaced with a Mexican silver peso. The ejector rod head has been replaced with the second style. Grips are a pair of very old aged ivory with stress cracks and turquoise inlays. Matching numbers on frame, trigger guard, backstrap, and cylinder. Factory stamps are strong. Gun has no original finish and is now a dark chocolate brown patina. The action is a little loose and does not have the distinctive four clicks. Muzzle is rounded from holster wear with a little pitting. Rifling is fine. An excellent example of a true cowboy gun that has been there and has that Texas-Mexico border look. 1,000.00 - 1,600.00

**7 - **DWM DOUBLE DATE GERMAN LUGER SEMI-AUTO PISTOL.**
Serial No. 6562. This pistol was manufactured for the German military and is dated 1917, it was then refinished and refurbished by the factory and issued to the German Army and police units under the Treaty of Versailles, as indicated by the 1920 double date. It has all matching numbers and is fairly standard issue with a 4" barrel, blued finish, checkered walnut grips, and chambered for the 9mm cartridge. The front grip straps have old unit markings as well as added police markings (SPL). Gun is in excellent condition, retains beautiful straw colors, 98% blued finish, excellent grips, and aluminum bottom magazine stamped "FXO" with Waffenamt and marked 6251. Mint bore and perfect action. Comes with an original 1916 dated holster with a loading tool.

Serial No. 34015-LW. This 1911 lightweight Commander was manufactured in 1954. Standard features include a 3" barrel, semi-automatic, and chambered for the .45 ACP cartridge. It has been beautifully engraved in a scroll and cattle-brand motif and nickel plated with ruby eye carved steer head ivory grips. It has a lightened trigger. Barrel is stamped "Colt .45 Auto". The engraving is signed D.W. Harris on right side of frame. Harris uses handmade tools to make elaborate engravings on firearms. Using the same style tools that have been in use for over 300 years, Harris elevates an ordinary firearm into the sphere of fine art. Some of the themes include: inside gripstrap is "XIT" and "UP"; right side of slide has a dollar sign, a machine part, and four "6's"; there is a "101" on the left side of slide as well as "SOB"; top of slide has an "8", a "22P" and a cursive "M", backstrap has "101" and a cross. All the stampings are as sharp as they left the factory. Has a mint bore and action. One of the most handsomely engraved lightweight Commanders this writer has ever seen, an absolute work of art.

**52 - MODEL 1795 SPRINGFIELD FLINTLOCK MUSKET.**
This is referred to in Robert Ball's book on the Springfield Armory as the "Type 2" manufactured with iron round pan circa 1804 to 1809. This particular musket has the 1805 Springfield dated lock with the cursive "U.S." and eagle. The barrel is stamped with the proof "P" along with "J. Norton". Standard features include a 44-1/2" barrel with bayonet lug and chambered for the .69 caliber buck and ball. Original flintlock ignition (no flint). Sling swivel on trigger guard, as well as the middle barrel band. No visible cartouche on stock. All metal surface are a smooth pleasing brown metal patina. The wood is original, shows all the original finish, and has the usual battle impressions. Fine working order. Has an original bayonet with a "W" proof mark and original ramrod. This was the standard U.S. military issue introduced immediately after the American Revolution and was the type of musket used when America went to war with the British in the War of 1812. It is a smooth bore. Bore itself is very good with some of the typical abrasions usually found in arms of this era. It is a fine example of an early U.S. Martial musket that warrants no apologies.

**53 - COLT MODEL 1855 HALF STOCK SPORTING RIFLE.**
Serial No. 1316. It is estimated that 1,000 to 1,500 of these were manufactured between 1857 and 1864. They were offered in both .36 and .44 caliber (this is a .36), percussion system, and 31-1/4" octagon to round barrel. This example has deluxe fiery grain checkered walnut stock, walnut fore end, pewter nose cap, and escutcheon. The hammer and lever were case colored but are now basically patina. All the metal on this gun is basically a soft brown patina. Original nipples are fine. Wood is beautiful fire grain but checkering is worn. Strong rifling but dark. Perfect working order. Top of frame is stamped "Colt's Patent 1856 Address Col. Colt Hartford, Connecticut, U.S.A.". It has a folding rear sight and blade front. Extremely nice condition. These are usually found in less than fine condition and this example is far above average. Extremely handsome.

**54 - 1862 RICHMOND MUSKET HIGH HUMP.**

After the capture of Harpers Ferry, the Confederates salvaged all of the manufacturing equipment from the Federal armory and moved it to Richmond. The dies used for the lockplates were from the Model 1855 musket which employed the Maynard priming system, obsolete by the start of the Civil War. The Confederates continued to use the same dies leaving the "high hump" but did not mill it for the primer system. This musket, produced in 1862, is very similar to the Federal Model 1861 muskets, it was designed as a single shot .58 cal. rifled muzzleloader, and featured iron buttplate, "C" shaped hammer, bolster with clean out screw, two leaf sight, iron trigger guard, three flat barrel bands held in place with springs, two strap hooks on middle band and trigger guard, tulip head ramrod with straight shank and threaded end, and iron nose cap held in place with a screw. Barrel is marked "VP" over eagle, there was not a date on the barrel and the buttplate is not marked. Lockplate is marked "1862" behind the hammer and "CS / RICHMOND VA" in front. The flat bands are each marked "U", the off-center U is a distinct Richmond mark. Wood inside the lockplate has been carved for a "mule foot", this is Confederate carving and is distinct from the Harpers Ferry groove which was carved for the Maynard system. The barrel is milled to a "T" mortise, this was a Confederate innovation to better secure the rear sight. A rectangle cartouche may be found in the wood opposite the lock, it is usually weak. Manufactured in Richmond, Virginia from 1861 to 1865. It is a .58 caliber percussion muzzle loader with a 40" barrel, three barrels bands, sling swivel, front sight that acts as lug for bayonet. Hammer and lock retain generous amounts of color case. Screws have generous amounts of fire blue. Barrel is in the white and has been cleaned, as have all the barrel bands and trigger guard. There is some light freckling on the trigger guard. Features brass fore end tip, tulip ramrod, and 1863 Springfield style rear sight with much of the original blue finish. Stock has no visible cartouches. Top of brass buttplate is stamped "RS" with the fire blued screws. Walnut stocks are beautiful, near mint, with all the original patina and some minor spotting. Barrel bands have a "U" on right side. Has a vintage to the gun tan linen and leather sling with a replaced single leather frog. Has a clean smooth bore. Extremely difficult to find in such clean condition. No pitting of any kind. Approximately 30,000 manufactured. Arguably the cleanest of these rifles we have seen. 8,000.00 - 15,000.00

**55 - FINE HENRY PAT. 1866 LEVER ACTION RIFLE.**
Serial No. 20824. Early rifle manufactured in 1869. Caliber is .44 rimfire, has the desirable Henry patent stamped on barrel. Standard features include a 24" full octagon barrel; full magazine; and brass frame, nose cap, and rifle buttplate. The barrel and tube are basically brown patina with freckling. Barrel stamps are strong. Has the flip-up rear sporting sight. Brass is beautiful mellowed patina with no signs of cleaning. The fore end is very good with small 1" chip at frame. Stock is very good, shy to metal at bottom tang, but still fits fairly nice. Factory sling swivels. Rifling visible but with usual corrosion. Fine action and a very nice, far above, average example of the early Henry patent stamped Yellow Boy rifle. This also is one of the few Winchester models in that the rifles are scarcer than the carbines. 8,000.00 - 14,000.00

**56 - FINE WINCHESTER MODEL 1866 S.R.C.**
Serial No. 151800. According to the factory letter this carbine was shipped as a carbine with the application date not available. Letter further states it was changed to a musket on October 15th, 1879. This gun is obviously not a musket and is fairly typical given the hand written records. If the factory letter is correct, this rifle was re-converted back to a carbine at some point in its life. Barrel measures 19-3/4" with a full magazine. Barrel stamp weak but readable. Barrel and tube are a mix of blue and gun metal grey. Brass frame is excellent and has never been cleaned. Saddle ring on left side. Rifle brass buttplate. Wood is very good, a bit shy to metal, with a small 3/4" crack on fore arm and a chip on the left fore arm. Rifling is visible. Very good bore. 3,500.00 - 5,500.00

LOT - 57

**57 - ALLEN & WHEELOCK DROP BREECH RIMFIRE RIFLE.**
Serial No. 1179. Manufactured 1860 to 1870's. Chambered for the .42 rimfire cartridge. Features include a 26" part octagon barrel, varnished walnut stocks, single shot, and falling block action. Factory stamps are bold. All metal surfaces are a speckled gun metal grey patina with no pitting. Has the rear sight lever mounted on left side of frame, iron mountings, and sling swivels. Wood is excellent with most of the original varnish and has a 1" crack at bottom of tang, and 3/4" crack at top (easily repairable). Strong bore and perfect action. Handsome rifle. 400.00 - 800.00

LOT - 58

**58 - ORIGINAL WINCHESTER MODEL 1866 LEVER ACTION RIFLE**

Serial No. 150127. This rifle was manufactured in 1878. It is a complete, honest, and untouched all original Yellow Boy standard rifle. Features include a 24" octagon barrel; full magazine; walnut stock; brass frame; rifle buttplate; and blued barrel, tube, and nose cap. Factory stamps are deep and perfect. Screw heads are tight. Barrel and tube are a pleasing soft mix of blue and brown with sharp edges and some of the usual light freckling. The mellow patina of the brass frame and buttplate has turned the dark mustard color that is so desirable to Winchester collectors, and it has not been touched or cleaned up in any way. The colors have darkened on both the lever and hammer. Walnut stocks are excellent with no cracks or chips, just the usual impressions, are quite lovely and have darkened to a satin sheen. Bore has some strong rifling, albeit the grooves exhibit typical corrosion caused from the black powder .44 rimfire cartridges of the era. This is a classic 1866 in the rare rifle version that is complete, clean and original and warrants no apologies of any kind. A classic Wild West rifle. 7,000.00 - 10,000.00

LOT - 59

**59 - WINCHESTER MODEL 1873 .44 S.R.C.**

Serial No. 405441B. This carbine was manufactured in 1892. It is a standard carbine featuring a 20" round barrel, full magazine, two barrel bands, blued finish, walnut stock, and carbine buttplate with saddle ring installed. Chambered for the .44-40 cartridge. Factory stamps are clear on barrel and worn on tang. Left side of frame has British proofs. All metal is basically a grey-brown patina. Wood forearm has some chipping at frame. Buttstock is very good with a missing sliver and is shy to the bottom tang on right side. Fine working action. Bore still show rifling, but dirty. 1,500.00 - 2,200.00

**62 - SHARPS MODEL 1874 MID-RANGE NO. 1 RIFLE.**
Serial No. 156707. According to the factory letter, this rifle was shipped to Thomas Cater, a Philadelphia judge and president of the Burlington, New Jersey Rifle Club. It was shipped as a Mid-Range No. 1 .40 cal to Tryon & Co. on May 20th, 1876. Equipped with a veneer tang and wind-gauge front sight. It was sent back September 22nd, 1876 to be fitted with a heel position sight. The letter goes on to state that there was much correspondence about this gun, and that it was eventually rebarreled to .45 caliber and returned to Tryon on April 20th, 1877 thus ending correspondence. The gun is presently stamped "Caliber .40" and the side of the barrel is stamped "Mid-Range 50", so it was apparently changed back again when it was returned to Tryon on April 20th for resale by the Judge. The factory wrote him that they had shipped hundreds of rifles out West without a complaint and for him to send the rifle back. The gun currently features the following: 29-3/4" octagon barrel stamped "Caliber .40", "Old Reliable Sharps Rifle Co. Bridgeport, Connecticut" on top of barrel, "R.S. Lawrence 1859" stamped rear folding sight, globe front sight, Sharps long range tang sight serial numbered to gun, plate covering the veneer heel sight fitting, brass half swiss buttplate, and walnut stock checkered in typical mid-range pattern. The barrel retains approximately 90% original factory blue, beginning to fade and thin. Case colors have basically greyed out. Wood is excellent with no cracks, retains most of the original varnish, and the checkering is sharp. Action is perfect. Strong clean bore. 7,000.00 - 10,000.00

**63 - SHARPS MODEL 1874 BUSINESS RIFLE.**
Serial No. 160055. Factory letter states that this business rifle was invoiced at the Bridgeport factory on March 19th, 1877 to the famous Western gun dealer John P. Lower of Denver, Colorado. It was sent with a total of five business rifles. For some reason, the letter describes a 30" full octagon double trigger rifle, while this rifle is currently a standard .45 caliber business rifle with the 28" heavy round barrel standard business rifle. The 28" heavy round barrel retains approximately 90-95% of the original factory blue, although it is dulling. It is stamped "Old Reliable Sharps Rifle Co. Bridgeport, Connecticut" and also ".45". The frame is basically gun metal color mixed with patina. Has a standard single set trigger. The wood is excellent with no cracks or chips. Standard rifle buttplate and single sling mount in rear stock. Action is perfect. Strong bore but frosted. These standard business models generally saw very heavy use and few survived in any real condition. This rifle has survived in amazingly fine condition. It is listed and sent as standard business rifle. Has to be a factory recorded error. 5,000.00 - 8,000.00

LOT - 64

**64 - SHARPS MODEL 1874 BUSINESS RIFLE.**
Serial No. 161102. Factory letter states that this model 1874 business rifle was invoiced at the Bridgeport factory on April 30th, 1879 to Schuyler, Hartley & Graham in New York City. Listed as .45 caliber standard business rifle with a 28" heavy round barrel, double triggers, open sights, and oil finished walnut stocks. The barrel is basically a grey-brown clean patina and is stamped "Old Reliable Sharps Rifle Co. Bridgeport, Connecticut" and "Business .45". Has the folding ladder sight, double set triggers, and standard rifle buttplate. Wood is very good with no cracks or chips. Top of comb has seven kill notches and has darkened. Frame is basically gun metal grey with no trace of color. Action is perfect. Strong bore. 4,500.00 - 6,500.00

LOT - 65

**65 - EARLY WINCHESTER MODEL 1876 RIFLE.**
Serial No. 55714. This rifle was manufactured in 1885 and is chambered for the popular and scarce .45-75 cartridge. It is standard in all respects with a 28" full octagon barrel, full magazine, blued finish and walnut stocks. Metal is basically a nice blue-brown-grey patina. Caliber is marked on top of barrel, not on carrier. Walnut stocks are very good with a nice dark finish and no visible cracks. Does have some hunting abrasions especially on bottom of stock. Has the standard folding 1876 rear sight. Has a strong bore with some abrasions. Perfect working order. Still has much of the original blue on loading gate. Wear on fore end at frame where it looks like it rode in a saddle scabbard. Colorful old West big bore buffalo rifle cleaner than most with obvious Western usage. A rifle with story. 2,000.00 - 3,000.00

Features a 26-1/4" half round/half octagon blued barrel (shortened), chambered for the .45-90 cartridge, single shot, falling block, lever action. Barrel retains approximately 85% original blue with freckling and a 1" rub on right side. Colors have turned nickel. Stock is very good with no cracks. Rubber buttplate has been added. Barrel has been shortened and sight set back. Rifling is strong but dirty. Action is perfect. 500.00 - 1,000.00

**LOT - 68**

**68 - **WINCHESTER MODEL 1885 HIGH WALL S.S. RIFLE.**
Serial No. 87234. This rifle was manufactured in 1900. Standard features include a 30" full octagon barrel, blued finish, single shot, falling block, walnut stocks, Swiss buttplate with added palm rest, tang rear sight and an adjustable globe Winchester front sight. Rifle is chambered for the .32-40 cartridge. Barrel is a pleasing mix of blue-brown patina. Frame retains approximately 40% of the high polish original factory blue, the balance with some minor flaking and high edge wear. Palm rest is contemporary to the gun and appears to have been custom applied. Has the big heavy buttplate turning patina. Stocks needs some work, there is a crack on the left of the fore end, a plug at wrist, a patch on right side, and a crack that extends 8" from the butt. Fairly strong rifled bore. Perfect action. With a professional reworking of the stock, this would be a mighty fine Schutzen rifle. 800.00 - 1,400.00

**136 - JOHN LENTALL ESTATE PAPERS & SAMUEL COLT.**
This includes John Lentall estate papers who was an Naval Architect. This is a great historical find attributing to the history of a signed Samuel Colt along with board of Naval and Marine officers. This collection of vintage documents contains patents, experiment, military correspondents and the new safety and reliability of Modern weapons of the day. This is a great quality signature. John Lenthall (1807–1882) was an important American shipbuilder and naval architect in the mid-19th century. He was responsible for the construction and repair of United States Navy ships during the American Civil War (1861–1865), as well as in the years immediately before and after it. His career spanned the U.S. Navy?'s transition from sail to steam propulsion and from wooden ships to ironclads, and in retirement he participated in early planning for an eventual steel navy. The younger John Lenthall began his career in 1823, when as a teenager he became an employee of the United States Department of the Navy at the Washington Navy Yard in Washington, D.C., where his father had once worked as Superintendent of Shipwrights. Report 1: 14 pages Great assortment of original reports dating to 1840 - 1850's May 18th 1840 Samuel Colt's Letter to the Secretary of Navy, Board of Navy and Marine Officers documenting 6 part testing experimental breech loading rifles having higher force in reguards to the patent on repeating rifles The Report goes in detail to the safety, force, accuracy, and reliability of Samuel Colt Improved design. Samuel Colt Signed "On Blue" Letter to the President attached signature. Correspondents between Samuel Colt to members of Board of Navy detailing the experiments and testing 6 phases atFort Jupitor, Lieutenant Colonel Harney commanding 2nd Dragoons Colonel D. E. Twiggs Lieut and Secretary 2 Dragoons The Letters speak about features of Samuel Colt's repeating rifles' durability and speed of reload. Report 2: 15 pages: The President Franklin Pierce February. 23 1854 U.S. Steam Frigate Susquehanna Legation Of the United States Honorable Daniel Webster, Secretary of State and Robert C. Schenck Minister of Foreign Affairs detailing Rio De Janeiro Repairs. This list of correspondents give record of eleven thousand four hundred two dollar and ninety cents at conversion rate of 1000 Reis to the dollar in expense repairs. Report 3: 1st Patent 1802 Prefected 1815 Feb 13, 1857 Patent Document to Mr. Stranahan from Committee of Naval Affairs Charles Olcott First conceived idea constructing Sea-going vessel of iron and filed Patent in 1802 Report 4: 6 pages Jan 25th 1858 to Secretary of war John B. **144 - S&W MODEL NO. 2 OLD MODEL PRESENTATION REVOLVER.**
Serial No. 11084. This revolver was manufactured from 1861 - 1874, it features a standard 6" octagon barrel, nickel plated finish, and ivory square butt grips. It is chambered for the .32 rimfire long cartridge, six shot non-fluted spur trigger. It retains approximately 80% of the original factory nickel finish, with the balance a pleasing dark grey patina. The aged ivory grips are in excellent condition and appear to have been on the revolver since its inception. Bore is excellent with strong rifling. There is some slight wobble at the hinge and an attempt has been made to tighten by slightly flattening the latch rings. Revolver appears to have a period replacement retaining pin. The backstrap is engraved "Capt. Dwight 75th Regt. N.Y.V." (New York Volunteers). According to our research Charles C. Dwight was mustered in as Captain of the regiment on October 3rd, 1861 and stayed at that post through July 10th of 1862, during that time their company fought in many of the early battles. A fine Civil War documented presentation revolver worthy of any fine Civil War collection. 2,000.00 - 3,000.00

**186 - COLT FACTORY ENGRAVED S.A.A. REVOLVER (1884).**
Serial No. 107009. According to the factory letter,dated 1972, this gun was shipped as a .45 caliber with a 4-3/4" barrel, factory nickel finish, rubber stocks, factory engraved, shipped on March 11th, 1884 to Schoverling Daly & Gales in New York City in a shipment of six guns. This gun remains in that configuration today, albeit it has been masterfully restored to as new condition. The engraving looks to be typical Helfricht. Gun retains virtually all of this finish. Has nearly full coverage engraving. All factory stamps are sharp as new. Screws and trigger have al the fire factory blue finish. Front sight is full height. Hammer is nickel. Has a pair of near mint First Generation Colt gutta percha eagle grips that fit almost perfectly. Action has been tuned to new with all four clicks. Bore is near mint. This beautiful revolver represents a golden opportunity to own an almost new factory engraved antique short barreled Army .45 at a fraction of the price of an all original one, or even a worn out original. Even the screw in frame takedown screw is mint with all the fire blue. It has never been fired since the restoration. 10,000.00 - 15,000.00

LOT - 187

**187 - U.S. MODEL 1842 PERCUSSION MUSKET.**
The Model 1842 musket was the first regulation model of percussion ignition system weapon made at the National Armories. It was the last smooth bore weapon made in .69 caliber. This example was made at the Springfield Armory. Lock and barrel are dated 1853. Barrel breach is stamped "VP" with eagle head. Has three iron bands. Barrel measures 42". Walnut stocks are excellent with a perfect cartouche in oval on left side. Buttplate is stamped "U.S. 43A 16". Gun is all original. Wood still has the raised grain. All metal is in the white and is free of any pitting. Has the original ramrod, original nipple, and sling swivels. Near mint shiny bore. A nice example of a pre-Civil War martial musket that would be hard to improve upon.

**189 - PRUSSIAN DREYSE M1857 CAVALRY NEEDLE CARBINE.**
Serial No. 908. Scarce Prussian Dreyse Model 1857 cavalry needle carbine made at the Dreyse, Sommerda factory in the 1857, as indicated by the markings on the receiver. 15.43 caliber. The Dreyse needle gun is a military breach loader. The gun was the invention of the gunsmith Johann Nikolaus von Dreyse, who in 1836 produced the first complete needle-gun. It became famous as the main battle weapon of the Prussians, who adopted it for service in 1841. Its name comes from the needle-like firing pin, which passed through the paper cartridge case to impact a percussion cap at the bullet base. The Dreyse is also the first breech-loader to use the bolt action to open and close the chamber, executed by turning and pulling a bolt handle. Matching serial numbers on receiver, barrel, bolt, and firing pin encasement. All the serial numbers are original. Numerous German proofs on metal. The left side of the receiver and barrel displays the Prussian Eagle. The left side of the octagonal part of the barrel displays Prussian Crown over "FW". Brass buttplate and trigger guard. Iron nose cap. Steel barrel rifled with four grooves. Full length walnut stock. Manufactured without barrel bands. Saddle ring is located behind the trigger guard. No provision for the cleaning rod. Features a 15" barrel. Bore is strong. Metal is brown patina. Action works fine. Wood is excellent with no cracks or chips, just a few minor battle bruises. Very scarce early carbine in much better than average condition. 1,500.00 - 3,000.00

**190 - **EARLY FARMINGDALE 1874 SHARPS RIFLE.**
Serial No. 2920. This rifle dates to the early Shiloh Rifle Manufacturing Co. manufactured in Farmingdale, New York and represents the finest and most historically accurate Sharps rifles ever produced. This is the Big 50 standard sporting rifle. Features a 30" octagon barrel, double set triggers, rifle butt, 1859 Lawrence type rear sight, and a Venier tang sight. Barrel is in excellent condition, retaining virtually all of the original factory blue. Perfect stamps. Frame retains most of the original case colors starting to darken. The lever has faded. Wood is excellent with no cracks or chips. Most of the color remains on buttplate. Mint bore and action. Of course, top of barrel is stamped "Old Reliable" and "Caliber 50 2-1/2". Literally indistinguishable from the old Sharps rifles. 1,200.00 - 2,200.00

**LOT - 191**

**191 - SHARPS MODEL 1878 MILITARY CARBINE.**
Serial No. 10151. This rifle was invoiced at the Bridgeport factory on December 31st, 1878 to N. Curry & Bro. in San Francisco, California and shipped as a .45-70 carbine. This is a standard carbine as follows: 24" round barrel, single barrel band, saddle ring on left side, and checkered steel buttplate. This gun is in fine condition considering the hard use most of these saw and the fact that only about 300 were ever manufactured. It has a carbine style folding rear sight. Barrel is stamped "Old Reliable Sharps Rifle Co. Bridgeport, Connecticut". Metal is basically a nice mix of blue mixing with brown patina with some light freckling. Wood is excellent, original, never refinished, albeit there are a couple of dents on the left side of stock and a 3/4" crack at the left side of wrist (easily repaired). Action is perfect. Strong bore with some light abrasion. A well-cared for rare gun sent to a desirable location. 3,500.00 - 5,500.00

**192 - HIGH CONDITION SHARPS MID-RANGE NO. 1 RIFLE.**
Serial No. 156346. According to the factory letter, this gun is listed in order book No. 2 as a Model 1874 Mid-Range No. 1 rifle invoiced at the Bridgeport factory dated June 6th, 1876 to Edwin S. Harris, a gun dealer in New York City. It is described as .40 caliber, case length not specified, with a 30" full length octagon barrel. It is noted as being equipped with a long range stock. Not noted Mid-Range No. 1 rifles usually had Vernier tang and wind-gauge front sights. The breach of the barrel on this rifle is stamped "44". It has the Lawrence stamped rear sight and "Old Reliable" stamp on flat. Equipped with the original tang sight but the front sight is a standard sporting sight. The walnut stocks exhibit the factory fine checkering with a Schnauble fore end tip, pistol grip with the base of the grip checkered, and the Sharps coarse checkered steel shotgun buttplate. As this rifle is a .44 caliber, not listed .40, while researching these rifles we have found many inconsistencies, and this rifle is definitely all original. Barrel retains approximately 95% of the original factory blue finish, starting to dull, with some light freckling and typical sharp edge wear. The case colors on frame have darkened with visible pattern. Wood is in beautiful near mint condition with no cracks or chips and sharp checkering. Action is perfect. Strong clean bore. This fine condition rifle is accompanied by a rare original Sharps 1874 leather carrying case with original straps made for the 30" 74 Sharps with a shotgun butt. It is in very good condition with some typical checking, but is far more rare than the rifle itself. A beautiful combination in stellar condition. 8,000.00 - 12,000.00

LOT - 211

**211 - **RARE WINCHESTER MODEL 70 PRE-WAR 7MM CARBINE.**
Serial No. 3467. Manufactured in 1937. Only offered from 1936 to 1954. The percent of pre '64 model 70's manufactured in 7mm caliber is rare enough and the number of carbines in that caliber are a mere percentage of this total making this pre-war carbine one of the rarest of all production Model 70's. Standard carbine features 20" blued barrel, checkered walnut stock, and bolt action. Carbine is in excellent and all original condition. Wood is excellent with a couple of minor bumps and sharp factory checkering. 98% original blue on metal. Strong rifled bore with some frosting. Perfect action. Rarity factor 9/10. A true collectors dream. One gun that is on virtually every Model 70's collectors want-list. 5,000.00 - 8,000.00

LOT - 212

**212 - **FINE WINCHESTER MODEL 55 TAKEDOWN RIFLE.**
Serial No. 1072853. This rifle was manufactured in 1929. It is a Model 55 Takedown chambered for the .32 WS caliber. Made from 1927 to 1932. Features a 24" nickel steel round barrel, half magazine, takedown, sporting sights, lever action, blued finish, walnut stocks, fluted comb, and checkered steel buttplate. Barrel retains virtually of the original high polish factory blue. Top and right side of frame retains approximately 98% original blue. Left side of frame exhibits the typical flaking of guns made in this era, retains 30% blue with the balance flaked to a brown patina. Walnut stocks are near mint with a couple of very minor dings. Lever retains approximately 50% original finish. This gun saw very little carry use and most of the blue loss is simply a case of flaking due to the metal finishing at Winchester. Excellent bore and action. This gun is serial numbered with the 1894 frame rather than the 55 frame, common practice at Winchester at the time. 1,200.00 - 1,800.00

**267 - INSCRIBED COLT MODEL 1849 POCKET REVOLVER.**
Serial No. 62343. While the gun is a fairly common and an average condition Colt 1849 Pocket Model with the following features: 4" octagon barrel, single action, five shot, .31 caliber percussion, manufactured in 1853, with the nickel plated trigger guard and back strap; it is the inscribed back strap that sets this gun apart. It is period inscribed "William Parker" on the backstrap and was consigned from Pennsylvania. A google search for William Parker dating to the Civil War era turned up some interesting information. We found a William Parker from Pennsylvania with a Civil War, slave, and abolitionist history. William Parker was a former slave who escaped to Pennsylvania in 1838, where he became an abolitionist and anti-slavery activist in Christiana, Lancaster County, where he was a farmer and led a black self-defense organization. These little pocket Colts were the perfect self-defense pistol for the time. He was notable as a principal figure in the Christiana incident (or riot), 1851, also known as the Christiana Resistance. Edward Gorsuch, a Maryland slaveowner who owned four slaves who had fled over the state border to Parker's farm, was killed and other white men were wounded in the party to capture the slaves. The events brought national attention to the challenges of enforcing the Fugitive Slave Law of 1850. Upon Gorsuch's death, Parker fled the area traveling by the Underground Railroad to Rochester, New York, where he met up with Frederick Douglass. He helped Parker get across the river to Canada. Settling in Buxton, Parker learned to read and write, and became a correspondent for Douglass' North Star newspaper. William Parker was renowned in the area for his activism against slavery, and his bravery in the protection of his and other blacks' civil and political rights. He assisted many runaway slaves and was one of many people in the area involved in the Underground Railroad. It was his boldness and leadership in the resistance at his house in Christiana that sparked the events that day. As to condition, all numbers are matching. The original walnut grips retain 75% of their varnish, approximately 30% of the original nickel plating remains. Balance of the gun is basically a brown/gun metal grey patina. Nipples are original. Most of the cylinder scene still visible. Lock up is perfect. Bore is strong with some light abrasions. It has three boogered screws. Even the wedge and loading lever numbers match. Further research into the life of William Parker and the Abolitionists movement in Pennsylvania would surely add some interesting historical information. 600.00 - 1,200.00

**273 - MIB COLT 1851 NAVY REVOLVER 2ND ISSUE.**
Serial No. 22851. These early Second Issue Navy revolvers are not reproductions, rather they are a Colt continuum as reintroduced. This fine revolver was manufactured in 1976, third year of production. It is a standard 1851 with a 7-1/2" octagon barrel, single action, .36 caliber percussion, and walnut grips. The barrel and cylinder retain all of the beautiful high polish Colt blue with Navy scene and no drag line evident. Loading lever, hammer, and frame retains all the brilliant Colt case colors. Fire blue screws have never been turned. The square back nickel trigger guard and backstrap retain all of the original nickel plating. This gun comes with an original Colt shipping box numbered on end with white marked, with styrofoam insert and paperwork. In addition, the gun rests in a beautiful walnut Colt display case, partitioned with all Colt accessories. These re-issues are some of the nicest black powder guns ever manufactured by Colt. 600.00 - 1,000.00

**275 - RARE COLT MODEL 1860 FULL FLUTE REVOLVER.**
Serial No. 1570. Considered one of the true scarcities among Colt Civil War black powder revolvers, offered is the Model 1860 Colt Army with the full fluted cylinder. Approximately 4,000 of this model were manufactured between 1860 and 1861. This particular gun was manufactured in 1860, first year of production. Standard features include an 8" round barrel, single action, six shot, .44 caliber percussion, cut for shoulder stock, blued finish, and case colored frame. This revolver exhibits all matching numbers including cylinder. Wedge number (1732) does not match. Loading lever is not numbered. A homemade rear sight has been set into the rear of the barrel. Action works, a little spongy at full cock. Strong rifled bore with minor corrosion. Not U.S. marked. Has a "G" inspector mark on trigger guard. No visible cartouche on grips which have a few chips. Gun has no original finish and is basically grey-brown. There is some fine pitting on barrel in front of cylinder and on frame. Frame may have had some cold blue wiped on. Very good representative of a rare Civil War era revolver. 1,500.00 - 2,500.00

LOT - 276

**276 - REMINGTON MODEL 1875 REVOLVER.**
Serial No. G534. This early Model 1875 Remington sports the standard 7-1/2" barrel, six shot, single action, nickel finish, wood grips, and chambered for the .44 caliber (stamped on left frame). This model has the blade front sight. Walnut grips have been checkered, finely done but not factory. Not a trace of the original nickel finish remains, unless grips are removed. It is basically a dark brown chocolate patina with raised freckling. Cylinder indexes. Good rifling but minor corrosion. Also includes a vintage handmade holster with some beadwork snap clasp with a star in the center. Comes with several documents stating this was owned by a curator of a museum and may have been associated with the Indian Police, as many nickel plated guns were purchased for their use in the 1880's. We can find no documentation or markings on the revolver substantiating this claim. 700.00 - 1,200.00

LOT - 277

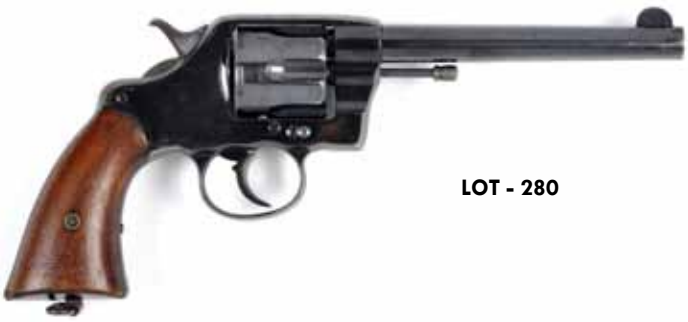
**277 - EARLY COLT MODEL 1877 LIGHTNING REVOLVER.**
Serial No. 1336. This early Lightning was manufactured in 1877 in the first year of manufacture. It is a Sheriff's Model, sans ejector, with a 3-1/2" blued etched panel barrel, chambered for the .38 long Colt cartridge, with blued cylinder and grips straps, case colored frame, and fine checkered rosewood grips (all standard for a first year model). The etched panel is original and bold and the barrel retains approximately 30% of the original factory blue finish, with some marring on the right side. The cylinder is basically a blue-grey patina with some bright blue in the flutes and some marring on a couple of the flats as well. Left side of the frame retains approximately 35% of the original case colors, some brilliant, while right side of the frame retains some traces of case colors. Backstrap and trigger guard are basically gun metal grey. Missing the front trigger guard screw. The butt screw is boogered. Original checkered rosewood grips are excellent with sharp checkering. Hammer does not stay cocked and the cylinder does not advance. Fine rifling, bore needs cleaning. With a little work on the action and two screws, this would be a fine example of an extremely scarce First Model Lightning. 600.00 - 1,000.00

LOT - 278

**278 - COLT S.A.A. REVOLVER.**
Serial No. 130127. The frame of this gun was manufactured in 1890 and features the front screw cylinder pin release. The rest of the gun is basically a hodge-podge of vintage parts and various restamps. The barrel is a 4-3/4" two line barrel address that has been rechambered for the .38 Special cartridge. Front sight has been filed. Barrel has been reblued, caliber markings removed from left side. The frame has an after-market U.S. stamp on left side. Cylinder is first generation .38 Special cylinder. Hammer is a first generation hammer. The walnut grips are after-market with recently reapplied R.A.C. cartouches on both sides. The gun has been refinished with wipe-on cold blue. Trigger guard and backstrap have been restamped to match frame. Lock up has all four clicks and locks up tight. Very good bore, but frosted. Basically a hand-built Colt Single Action Army using various parts and modern restamps. Should make a fine shooter. 700.00 - 1,000.00

LOT - 279

**279 - COLT NEW POCKET DOUBLE ACTION REVOLVER.**
Serial No. 82. This early serial number was manufactured in 1893, the first year of production for the New Pocket Model. Standard features include 2-1/2" barrel, blue finish, six shot, double action, chambered for the .32 Police cartridge, and Colt gutta percha grips. Finish is basically a smooth brown patina. Double action works fine. Has a very good bore with some roughness. 150.00 - 250.00



LOT - 280

**280 - **COLT MODEL 1894 NEW MODEL ARMY REVOLVER.**
Serial No. 5450. Offered is an extremely fine condition Colt martially inspected swing-out cylinder Army revolver. Standard features include a 6" barrel, six shot, double action, chambered for the .38 long Colt cartridge, and smooth two piece walnut grips. Has the R.A.C. (Renaldo Carr) inspector marks on bottom of both grips and left side of frame. Back of cylinder has a "K" inspector mark and is numbered 8229. Bottom of barrel is stamped "4097 R.A.C". The last patent date is March 5th, '95. Butt has a lanyard ring. Gun retains approximately 95% of the original high polish factory blue with generous amounts of fire blue on small parts. Action is perfect. Bore is mint. This revolver is in extremely wonderful condition and exhibits the later military updates such as the addition of the lanyard loop. Grips are near mint. It is getting extremely difficult to find high condition martially marked revolvers from this era in this condition. 800.00 - 1,200.00

**282 - **COLT MODEL 1911 NAVY SEMI-AUTOMATIC PISTOL.**
Serial No. 38985. One of the more desirable pistols amongst 1911 aficionados are those made for the United States Navy prior to World War I. This pistol was manufactured in 1913 and is a standard Navy in all respects. According to the factory letter it was part of a 1,300 gun shipment sent on July 25th, 1913 to the General Storekeeper, Brooklyn Naval Yard. Features include a 5" barrel, blued finish, semi-automatic, chambered for the .45 ACP cartridge, and walnut diamond checkered grips. Right side of the slide is stamped "Model of 1911 U.S. Navy", left side has the manufacture, patent dates, and Colt pony. Left side of the frame is stamped "United States Property" in addition to "W.G.P." for Walter G. Penfield (1911-1914). The serial number falls correctly into the block of Navy pistols, shipped to the Brooklyn Naval Yard. The gun has been completely disassembled and we offer the following notes: "H.T." stamped inside frame; "M" stamped at back of slide; two-tone magazine later replacement, no key hole or lanyard; barrel has "P" on the left lug; diamond checkered grips are replacements; has a type one barrel bushing; short type one hammer, type one housing catch; type one slide stop; and a type three rounded tab. Has the long pull smooth trigger with the U-notched read sight and small front. Gun retains virtually of the reapplied high polish blue finish. Lettering has been in-filled in white. Bore is excellent and action perfect. A very finely restored and rare U.S. Navy. Factory letter. 1,500.00 - 2,500.00

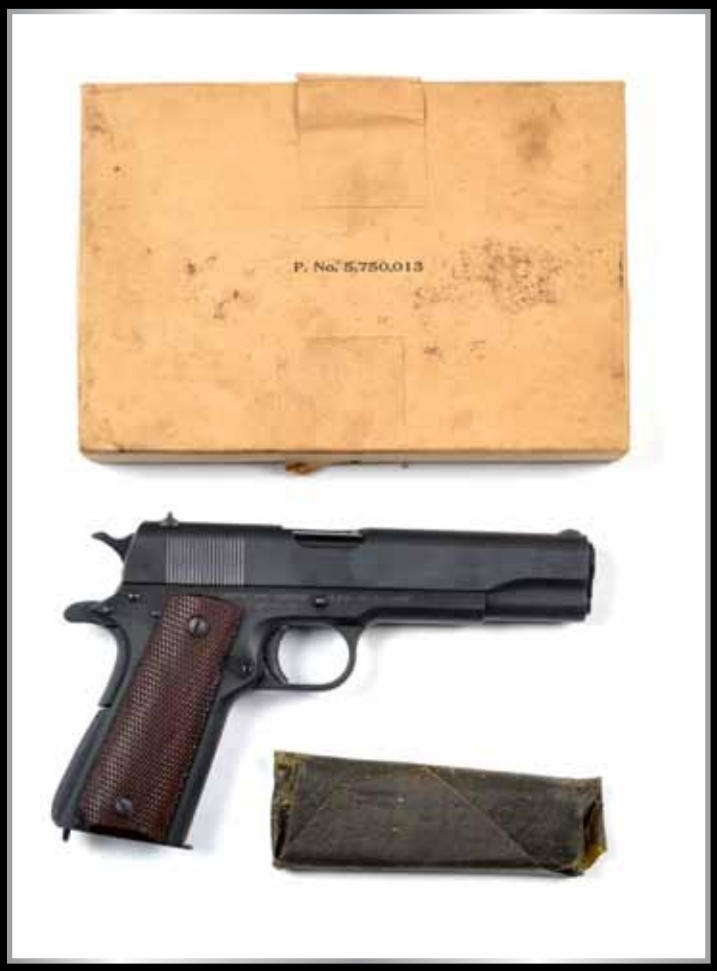
**283 - **ID'D COLT MODEL 1911 U.S. ARMY SEMI-AUTO PISTOL**

Serial No. 94751. This is an incredible offering of an ID'd Colt .45 semi-automatic 1911 pistol. The pistol itself is a standard Model 1911 U.S. Army with a 5" barrel, blued finish, checkered walnut grips, and chambered for the .45 ACP cartridge. It was manufactured in 1914 and is 100% original with all the correct parts. Blued barrel is stamped "HP" and left side of frame has the "WGP" inspector stamp for Walter G. Pennfield (1911 - 1914). The slide has the horse at the left rear. "United States Property" stamped on left front frame and "Model 1911 U.S. Army" on right side of slide. The gun retains approximately 95% of the beautiful early factory blue finish, thinning on front and back grip straps, with some very light high edge wear, muzzle wear, and a light drag line. It has an excellent frosted bore. Diamond checkered grips are near mint. Comes with an original period two-toned pinned magazine with lanyard loop. Accompanying this pistol is an original 1917 Campbell holster, an original webbed belt, magazine pouch with one extra lanyard loop magazine, canvas U.S. khaki tunic, copy of the Aeronautics License to Clifford Dounce dated 1918, an original photograph of Dounce wearing this very tunic, a letter from Dounce's grandson, copies of documents from the Kelly Air Field in Texas, and an original manual of military aviation dated 1917 - 1918 signed by Dounce. Dounce has inscribed in his own hand on the back of the holster different airfields at which he was stationed to include: Wilbur Wright Field, Dayton, Ohio; Dallas, Texas; etc. Dounce rose in rank from Private to Liet. in the Army Air Corp. Given the high condition of this early 1914 manufactured pistol and the direct family lineage to the 1917 - 1918 Army Air Corp makes this outfit a stellar historical perspective with regards to early war-time aeronautics. This gun has been completely disassembled and examined by noted 1911 expert Eric Gustafson who has confirmed that this gun is completely original. 6,000.00 - 9,000.00



**284 - **UNFIRED UNION SWITCH & SIGNAL COLT 1911 PISTOL.**

Serial No. 1053032. The U.S.&S. Boxed Colt pistol was made under government contract on February 11th, 1943 and they delivered a total of 55,000 pistols by November 27th, 1943. It is a standard 1911 model with a 5" barrel chambered for the .45 ACP cartridge. Finished using the Du-Lite black oxide process over mild sand-blasting which produced a light blue-grey color. Serial No. 1053032 is from the latter part of the production run and both the slide and the frame have the "P" proof stamp. The "P" proof on the top of the side is offset to the left. The left side of the frame has the inspector stamp R.C.D. for Robert C. Downie (1942-1945). Every single part on this pistol is correct for this manufacture, and the gun remains in as new condition, showing no wear of any kind, albeit a couple of minor storage marks. Comes in an original U.S. Government pasteboard box with an extra wrapped, never-opened magazine in the green wax paper. This is one of the more desirable and harder to find World War II manufactured pistols, and would be impossible to find a finer example. 6,000.00 - 9,000.00

**285 - **RARE SINGER MFG MODEL 1911 SEMI-AUTO PISTOL.**

Serial No. S800170. One of the great rarities in the Colt collecting field. Singer (Sewing Machine) Mfg Co. was granted an order to produce pistols on April 17th, 1940. They manufactured a total of 500 1911 A1 pistols that were shipped to the U.S. Army Air Force after December 5th, 1941. Serial number range is S800001 to S800500. This pistol is serial numbered S800170, so it is the 170th pistol manufactured out of 500. All Singer Model 1911 A1's were of the highest quality, polished to a satin sheen, and finished a Du-Lite black oxide process. The stocks are made of plastic by the Singer Co. and feature the lightened recess on the inside panel with no screw hole rings. The gun remains in amazing all original condition. As to the blued finish, the gun retains fully 99% of the factory original finish, there is a one slight rub on left of the trigger guard, and the lightest hint of high edge wear at the hint of frame. The grip straps retain virtually all of the blue and there is hardly a speck of high edge wear at the end of the muzzle. If it were not for a little light corrosion on the grip frame under the grips (only the edge of which are visible with grips in place from having been exposed to moisture), with a patch on the arched mainspring, the gun is nearly new. There is an ever so slight drag line. It has been completely disassembled, and each part examined for originality. The barrel and magazine are correct, as are all the other small parts, including the special hammer. The left side of the frame has the "J.K.C" inspector stamp, along with the proof "P". "P" is also stamped on top of slide. Right side of frame is stamped "United States Property" "M 1911 A1 U.S. Army". Left side of slide is stamped "S. Mfg. Co. Elizabeth, N.J., U.S.A." with the square stamps. We presented this gun to noted Colt 1911 authority Eric Gustafson for complete disassembly for examination of every part, comparing each to another original Singer on hand. Every single aspect of this pistol is 100% correct and original to this gun. It is a standard 5" barrel chambered for the .45 ACP cartridge. It appears as if the gun saw little to no use at all and must be considered one of the finer condition Singers to ever hit the open market. A true prize that would be the centerpiece of any advanced Colt automatic collection. 80,000.00 - 120,000.00

**286 - **FINE COLT MODEL 1911 NAVY SEMI-AUTO PISTOL.**
Serial No. 9139. According to the factory letter, this pistol was shipped on October 25th, 1912 in a shipment of 1,000 guns to the Brooklyn Naval Yard. The Navy Model 1911 was manufactured between 1912 and 1915. This is a standard Model 1911 with a 5" barrel, blued finish, checkered diamond walnut grips, and chambered for the .45 ACP cartridge. The right side of the slide is stamped "Model of 1911 U.S. Navy", left side of frame is stamped "United States Property". The left side of the frame has the Walter G. Pennfield inspector stamp (1911-1914). Has all proper parts including smooth long trigger, short checkered wide-spur hammer, correct sights, correct diamond checkered walnut grips, and an original Colt lanyard loop magazine (magazine does not have keyhole slot). The gun remains in all original fine condition. Grip straps have worn to a blue-silver patina. Remainder of gun retains 85% original factory blue finish with the balance smooth even wear. An extremely fine condition and all original Colt Navy, proper in all respects. Gun has a light drag line and the barrel is a period stamped Springfield replacement (stamped "SP" on lug). This gun has been completely disassembled and examined by noted 1911 expert Eric Gustafson who has confirmed that this gun is completely original.

**287 - **COLT MODEL 1911 U.S. ARMY MFG. 1938.**
Serial No. 712778. When one is putting together a collection of 1911s, some of the scarcest to obtain are the U.S. Army marked pistols made between 1937 (first year of manufacture since 1924) and 1941. They are prized acquisitions due to the extremely low number of military productions guns during this era. This particular example was manufactured in 1938, one of the lowest single year production models, with all the U.S. Army markings and exhibits all the correct properties. Left side of frame is stamped with a "P" and "H", right side of frame is stamped "United States Property M1911 A1 U.S. Army". The right side front trigger bow is stamped "77". Top of frame is stamped with a "G" along with "H.O.1". Left side of the slide has the patent dates with horse in center. Top of slide has a "P". Magazine is stamped "Colt .45 Auto", put together with two pins, no half tone. Left side of the barrel is stamped "Colt .45 Auto" with a "P" on the left lug and polished chamber. Balance of barrel is blued. Mint bore and action. All small parts are the checkered variation. Has the U-notch rear with low front sights. Walnut checkered panels and short checkered trigger. Finely finished in the original rust blue of which 95% of that finish still remains. Grips are near mint and sharp. Frame retains approximately 95% original blue with some high edge wear. Slide retains approximately 98% of its original factory blue with a little high edge wear. Features a 5" barrel chambered for the .45 ACP. Superior condition for a blued early pre-war Army 1911 semi-automatic. Very rare in this condition. 4,000.00 - 8,000.00

**288 - **COLT GOVT MODEL 1911 AUTOMATIC PISTOL (1921).**
Serial No. C119532. Colt factory letter states that this pistol was shipped on May 13th, 1921 to Hibbard, Spenser, Bartlett & Co. in Chicago, Illinois in a shipment of ten guns that features 5" barrels, blued finish, chambered for the .45 ACP cartridge, stocks not listed but are standard original diamond checkered walnut panels. This was a time when Chicago's history is most remembered for the bootlegger Al Capone and the gangsters that ruled the city, which included Mayor Big Bill Thompson. The gun has survived in phenomenal condition. Retains approximately 97% of the brilliant high polish Colt factory blue. Every part is original to this gun. The grips are near mint. It has a mint two-toned Colt magazine. There is a light drag line and a small rub on left side of frame. Has the proper sights, proper small checkered pre-war parts with the long smooth trigger and flat mainspring housing. Bore and action are clean. Beautiful pre-war Model 1911 dating to a tumultuous city during a period of history often captured in film and literature. 2,000.00 - 3,000.00

**297 - **RARE NICKEL COLT 1911 GOLD CUP PISTOL.**
Serial No. 70N33251. This pistol was manufactured in 1976. It is a standard Series 70 1911 Govt Model Gold Cup National Match chambered for the .45 ACP cartridge. It has all standard Gold Cup National Match features including the Elliason fully adjustable rear sight, serrated wide top rib, adjustable trigger, serrated front grip strap, flat serrated rear mainspring housing. Barrel is stamped with the Series 70 "M.M." marking. Rear sight is blue. Balance of gun is Colt factory nickel. Colt Factory letter says that this gun was shipped to Bell's Sporting Goods in Chicago in a royal blue finish. This came from the original person who purchased this gun at Bell's in this nickel finish. It is fully in the opinion of this writer that this gun is factory nickel with the high polish and matte finish combination, only perfected at the factory. The lines are as sharp as razors. Gun shows little to no use of any kind and still has the original warning tag. Walnut grips with Colt silver medallion. Gun is in as new condition retaining all the original factory nickel plated finish. Colt factory letter included. This is the first factory nickel Series 70 Gold Cup that we have ever seen. Extremely rare. 1,500.00 - 2,500.00

**298 - **RARE COLT MODEL 1911 BB SERIES PISTOL.**
Serial No. 335150-C. The collet bushing was introduced by Colt in 1970 and is easily identified by being made of spring steel with four "fingers" at the rear. The last batch of standard commercial Governments in 1970 incorporated the new barrel bushing and matching barrel (which has a slightly belled muzzle) as a test run. These pistols (approximately 1500 made) have conventional post-war commercial markings, and have a special "BB" marking underneath the serial number. The slides on these models have the Pre-Series 70 factory stamps. This example has a blued finish, checkered walnut grips, gold medallions, 5" barrel, and is chambered for the .45 ACP. The barrel is stamped "Colt .45 Auto BB" as visible through ejection port. The gun remains in virtually as new condition. There is no idiot line visible and has just a couple of extremely minor storage marks on slide. Mint bore and action. Comes in an original Colt two piece box which is numbered to the gun on bottom. No paperwork. 1,500.00 - 2,500.00

**299 - **DAN WESSON DOUBLE ACTION .357 MAGNUM REVOLVER.**
Serial No. 132729. These revolvers were introduced in the 1970's and were quite innovative in design in that it was made to accept interchangeable barrels. They were often sold in sets with the head space and barrel removing tool. Standard features on this gun include 4" barrel, blued finish, six shot, double action, .357, checkered walnut grips, adjustable rear sight, wide smooth trigger, checkered hammer, and vent rib. This gun has seen use but still retains perfect action and fine bore. The original blue finish exhibits some muzzle wear, drag line, and some light storage scratches, but nothing major. The grips have lost a high percentage of their original varnish and would greatly benefit from restoration.

**324 - MODEL 1812 SPRINGFIELD U.S. FLINTLOCK MUSKET.**
NSV 30,000 of these were manufactured between 1814 and 1816. They are chambered for the .69 caliber single shot ball. This model was adapted as standard on December 8th, 1812, though production did not take place until 1814. This rifle is in unusual fine condition. It is finished in the white. The breach of the barrel has the "V" and "P" proof mark with "U.S." at breach. Both the lock plate and buttplate are stamped 1812, in addition the lockplate is stamped with "U.S. Springfield" and an eagle. There is a U.S. inspector's stamp on left side. The wood is excellentan has never been refinished, and still has some raised grain. The metal parts are clean with some patina and the usual denting at beach extending 8". It has the original flintlock ignition system. Nice clean bore. Ramrod is still in place. One of the cleaner examples of this musket to be offered. This is a Type One, which constituted the first 10,000. Includes bayonet. 2,000.00 - 3,500.00

LOT - 325

**325 - U.S. MODEL 1842 PERCUSSION MUSKET.**
Lock is stamped "Harpers Ferry 1845". Features a 42" barrel, .69 caliber percussion and is finished in the white. Lock has American eagle with "U.S.". Barrel is dated 1845. Left side of barrel is stamped "V.P." with eagle head. Cartouche on walnut stock not visible. Walnut stock is very good with a 2" stress crack on right side, but no other cracks or chips. Smooth buttplate is stamped "U.S." at top. All metal surfaces are a smooth clean gun metal color with no pitting. Perfect nipple. Smooth bore that is extremely clean. Lock works perfectly. Comes with original socket bayonet. An extremely fine example of a pre-Civil War musket. 1,200.00 - 2,200.00

**326 - FINE WINCHESTER MODEL 1873 1ST MODEL RIFLE.**
Serial No. 8958. According to the factory research, this gun was shipped on September 15th, 1875. Standard features include 24" round barrel, full magazine, blued finish, rifle butt, walnut stocks, and case colored hammer and lever. Factory letter confirms the above, as well as plain trigger and triple "X" wood. Letter states there is a compass in the stock, which there is not. It is engraved on the left side plate "L.C. Williamson" which is not listed in the letter, but this name is in the Winchester engraving book. Gun remains in excellent condition. Barrel has a pleasing mix of blue and brown patina with some minor freckling, as does the frame which still retains some of the brilliant original factory blue. Features the thumbprint dust cover. Wood is excellent with no cracks or chips. Traces of case colors on hammer and lever. The loading gate still has the majority of its original factory fire blue. Brass carrier is unmarked and unpolished. Strong clean bore with minor frosting and perfect action. Extremely fine and clean early First Model 1873 Rifle. Some further research on Mr. Williams could yield more interesting information about this fine rifle. 4,000.00 - 8,000.00

**327 - SHARPS MODEL 1874 SPORTING RIFLE.**
Serial No. C54490. Factory letter indicates this rifle was sent from the Hartford factory on May 12th, 1875 to John P. Moore's Sons in New York City. It was shipped as .44 caliber with a 28" full octagon barrel, double triggers, globe and peep sights, and oil finished stocks. Barrel retains approximately 75% original factory blue with the balance turning a pleasing blue-brown patina. There are traces of nice colors on left side of frame. The walnut stocks are excellent with no cracks. Has the pewter fore end tip, standard rifle butt, long range tang sight, 1859 Lawrence folding rear sight, and the Spirit Level globe front sight. Strong bore and perfect action. Extremely nice 1874 sporting rifle. 6,500.00 - 9,500.00

**328 - AS NEW WINCHESTER MODEL 1873 1ST MODEL DELUXE .44**
Serial No. 25028. According to the factory this rifle was shipped on September 12th, 1878. The only information is that it left as a rifle with a round barrel and plain trigger. The actual rifle has a 30" round barrel, perfect factory stamps, chambered for the .44-40 cartridge, thumbprint dust cover (not raised), 2x deluxe walnut checkered stocks, straight grip, and brilliant case colored frame, lever, hammer, buttplate, and nose cap. It also has a set trigger. The bore is mirror bright. Nose cap has a blued plug for a sling. Loading gate is fire blue and the screws are in the white. This special order rifle, with its mint bore and action, and as new condition on the outside, it the work of noted custom gunsmith Dave Norin. His workmanship is among the best in the United States and the gun now looks as if you walked into a sporting goods store in 1878 and ordered a brand new Winchester Deluxe Model 1873 rifle. The stock checkering pattern is in the Winchester book. The bone color case hardening is as nice as anything Winchester did in the 1870's. Has original sporting rear sight and bead front. This is an opportunity for a collector or shooter to get a brand new deluxe Winchester First Model 1873 at a fraction of what this rifle would cost if not restored. From the beautiful deep original style rust blueing to the brilliant fiery bone case colors and the satin finish checkered walnut stocks, it is a breath-taking weapon in all respects. 4,000.00 - 8,000.00

**329 - HIGH CONDITION CUSTER RANGE 1873 TRAPDOOR CARBINE**

Serial No. 41668. This is one of the nicer Custer era range 1873 trapdoor S.R.C.'s we have seen. **367 - **RARE U.S. SPRINGFIELD M1903 USMC SNIPER RIFLE.**

Serial No. 1360263. At the outbreak of World War II, the Marine Corps were in dire need of accurate sniper rifles for special troops. The Marine Corps in particular took matters into their own hands. They procured standard star gauge national match rifles that were in inventory at the armory in Philadelphia and converted them by cutting away an area on the hand guard, installing scope blocks, and outfitting these already target grade rifles with an Unertl 8x scope. The top of the scope is stamped "J. Unertl" and underneath is stamped "USMC - Sniper No. 2308". Features of the rifle are as follows: barrel is stamped "S A" with the flaming bomb and "6-30"; muzzle is stamped with the star gauge at 6 o'clock; right side of frame is stamped with the serial number; right side of barrel sleeve is stamped with two inspector marks; there is a gas hole on the right side of front receiver bridge; top of bolt is stamped "N.S." for nickel steel; bottom of each scope block is stamped "O" and "E". It has the flat rear sight wheels. Bottom of stock is stamped "D7836-4" and "1360263". It has a National Match buttplate and a steel frog 1903 leather sling. Left side of stock is stamped "RA-P" in a box. When the hand guard is removed behind the block on barrel stamped "DW4625". There is a "3" stamped under the bolt, "S" stamped on the side of the extractor, under the hand guard into the wood is stamped "0263" with some white residue. The hand guard cut out for block is not polished and is left in the rough. ME reading is one. Optics are fine. Wood is excellent with no cracks or chips with an "S O" stamped in safety cut out. There is an "H" stamp on bayonet lug, a "U" stamped on rear barrel band, a block "P" in a circle stamped on the inside of the pistol grip on the C stock. There is a brass museum or ID tag tied to the rear swivel, stamped "562". It has two stock bolts. Frame retains 90% of the original finish. Barrel sleeve finish is thinning. **378 - **KRIEGHOFF MODEL 32 12G SHOTGUN.**

Serial No. 2104. This Krieghoff started its life as a Model 32. It has since been upgraded to a Crown grade with engraving and gold inlays. One set of barrels measures 26 - 3/4", has a ventilated rib, has 2 - 3/4" chambers, and has choke tubes. The second set of barrels are 30", have a ventilated rib, and are choke improved and modified. The workmanship on this upgrade is very good, but not up to Krieghoff's high quality standards. The wood has been refinished and the metal is now proud to the wood in some places. The length of pull is 14" to a Pachmayr pad. One set of barrels have been cut to 26 - 3/4" and choke tubes have been installed. The second set of barrels is a single barrel with the lower tube neatly plugged. Bores are excellent. Barrel blue is 95 - 99%. It appears as if the numbers on the barrels do not much the numbers on the receiver. This is a wonderfully made high quality German gun which can still be enjoyed on the trap field. Manufactured in 1965. 4,000.00 - 6,000.00

**388 - **MINT BOXED REMINGTON MOD 11 SHOTGUN U.S. MARKED**

Serial No. 474123. The mere sight of this rare shotgun should be enough to get the heart racing of any military shotgun collector. It is your basic Model 11 semi-automatic 12 gauge riot gun with a 20" cylinder bore, barrel blued finished, checkered walnut stock, and the Remington logo hard rubber buttplate. The left side of the frame has "U.S." with the Ordanance bomb, as does the top of the barrel. The humpback receiver (like the Browning Auto Five) is matted on top. The entire gun is in as new condition with 100% blued finish on barrel and frame, the wood stocks are as new with the Ordanance wheel F.J.A. stamp on left side. Bore and action are mint. Comes in its original Remington box with matching serial number, along with 20" (length) CYL choke five shot 12 gauge. Box is complete and is in very good condition with the proper original matching end label. Accompanied by an original Model 11 sales brochure. This is the finest and only boxed example of Remington autoloading shotgun that this writer has seen. Riot guns are extremely difficult to find, coupled with the rarity of the U.S. markings, and in the original box in this condition, it is doubtful a nicer U.S. stamped example exists anywhere. Truly a museum piece for the military shotgun collector. Simply an amazing find.

**417 - FINE ENGRAVED COLT 1851 NAVY CONVERSION REVOLVER.**
Serial No. 89793. With the advent of the introduction of the self contained cartridge and the expiration of the Rollin White patent in 1866, Colt began the diligent process of converting their black powder revolvers to enable the firing of self contained cartridges using the Richards or Richards Masons patents. This is such a conversion. Produced in the early 1870's, standard features include a 7-1/2" octagon barrel, six shot, single action, and rear of cylinder cut and adapted to fire a .38 centerfire cartridge. Gun has all matching numbers except wedge not numbered. All metal surfaces now have a nice, fine, light gun metal tone. Markings are sharp with the exception of the Colts patent on from that is a bit light, which is normal for these guns that were refinished at the time of conversion. Cylinder scene is partially visible and is numbered 899, while this number does not match the rest of the gun, it is common that cylinders were switched at the time of conversion as well. The gun exhibits beautiful, simple scroll engraving on both side of the barrel and back of cylinder. It appears to be 100% contemporary to the age of the gun. In addition, the backstrap has been engraved in a different pattern, and the gun sports a pair of original ivory grips that still fit the gun well with a bit a shrinkage and mellow tone and line aging. Gun indexes and locks up perfectly. Strong clean bore. An extremely clean and handsome Wild West single action revolver in a popular model used by many Western personalities. Center fire 38, much scarcer than R.F. 2,000.00 - 4,000.00

**419 - E.A. PRESCOTT SINGLE ACTION NAVY REVOLVER.**
Serial No. 807. Manufactured from 1861 to 1863 with quantities estimated at only a few hundred. Standard features include six shot, .38 caliber rimfire cylinder, 6" octagon barrel (standard length was 7-1/2" with several 6-1/2" and 8-1/2" versions noted) making this 5-15/16" either extremely rare or possibly period shortened, albeit the muzzle is radiused properly and the front sight is set in its proper position. Barrel markings are strong. It is the iron frame model of which all metal surfaces are a smooth gun metal patina. The two piece walnut grips have a flared square bottom and are excellent with only some dents to the bottom. It has a brass trigger guard. Operation is flawless. Strong bore with light frosting. The iron frame model is far rarer than the brass, constituting 25% of production. The Navy model was an infringement on the Rollin White patent and production was halted by Smith & Wesson. They are often considered secondary martial handguns, as 400 of them were sold to Kansas state militia in 1862. Production of the iron frame model is estimated at 200. Very scarce Civil War era revolver.

**420 - COLT MODEL 1860 ARMY PERCUSSION REVOLVER.**
Serial No. 62123. All matching numbers except for unmarked wedge. Manufactured 1862. This is an excellent all original martially marked 1860. All proper inspector marks. Features an 8" barrel, .44 caliber percussion, single action. Walnut grips have light cartouche with some chipping at base. Blue and case colors have turned a pleasing blue-brown patina. Partially visible cylinder scene. Action locks up tight, albeit hammer seems to be missing last locking notch. It appears it may have had some wiped-on cold blue, giving it a richer tone. Cylinder has all original nipples. Strong frosted bore. Far above average 1860 Army.

**423 - NY ENGRAVED COLT MODEL 1877 REVOLVER.**
Serial No. 25658. According to the factory letter, this revolver was shipped as follows: caliber .41 long Colt, 5" barrel, blued finish, grips not listed, sent in a shipment of five guns to Hartley & Graham of New York on April 1st, 1881. It was then engraved by the famous and talented Hartley & Graham engravers where the nickel finish was applied, as well as the two piece pearl grips. The gun remains in beautiful condition with lovely engraving. Retains approximately 90% original factory nickel, with the balance a smooth gun metal grey. Front sight has never been filed. Rear trigger bow is stamped ".41 caliber". The pearl grips are in excellent condition with a couple of minor chips. All matching numbers. Indexes perfectly both single and double action. Strong bore with light frosting. Lovely early antique Thunderer. 2,500.00 - 4,500.00

LOT - 424

**424 - **COLT MODEL 1877 LIGHTNING REVOLVER.**
Serial No. 142335. Revolver was manufactured in 1903. Standard features include a 4-1/2" barrel, double action, six shot, case colored receiver, and Colt gutta percha grips. Gun remains in excellent condition. Barrel and ejector retain approximately 75% original high polish factory blue. Cylinder trigger guard and grips strap retain approximately 50% original blue. Generous fire blue on screws and back of hammer. Still retains some excellent case colors. Grips are excellent, have turned brown with some high edge wear. Single action works, double action needs some attention. Fine bore. Chambered for the .38 long Colt cartridge. 1,000.00 - 1,500.00

LOT - 425

**425 - FINE COLT 1877 THUNDERER REVOLVER.**
Serial No. 67354. This revolver was manufactured in 1888. It is a standard so-called Sheriff's Model due to the lack of ejector. Standard features include 3-1/2" barrel, factory nickel finish, fine etched panel, six shot, double action, Colt gutta percha grips and chambered for the .41 long Colt cartridge. The Model 1877 in this caliber is referred to by collectors as the "Thunderer". Two features that make this gun desirable is the caliber and the etched panel. Barrel retains approximately 98% original factory nickel with some light muzzle wear. The frame and trigger guard are 95% with a couple usual handling marks. Etched panel is strong. The cylinder, under close examination, only retains 10-20% original factory nickel, but the rest has been cleaned to where it appears to be nickel. Grips are near mint. Nice fire blue on back of hammer, trigger, and grip screw. Working action. Strong clean bore. A fine example of a very popular Wild West revolver. 1,200.00 - 1,800.00

Serial No. 7964. There is a ghost set of numbers under the serial number along with a "B" and an "8". The underside of the barrel, the bottom of the right grip, back of cylinder, and left side of frame are all stamped "R.A.C." for Renaldo Carr. The bottom of the butt is stamped "U.S. Army Model 1901" and has the standard lanyard ring. The two piece walnut grips are in excellent condition with no cracks or chips. The gun retains fully 90% of the original high polish factory blue throughout, with the majority of the fire blue on trigger. The grips are not numbered. Standard features include 6" barrel, blued finish, double action, chambered for the .38 long Colt cartridge. The screws remain in untouched condition, albeit one right side screw is slightly boogered. Operationally perfect. Bore is strong with some light frosting. Front sight is unaltered. Extremely fine condition example of a standard Philippine Insurrection Army issue revolver. 500.00 - 1,000.00

**430 - COLT S.A.A. U.S. CAVALRY R.A.C. REVOLVER.**
Serial No. 134272. Manufactured in 1890. This is a U.S. issue single action army .45. Standard features are as follows: 7-1/2" barrel; six shot; .45 LC caliber; fluted cylinders; walnut grips. All numbers match including cylinder. This is a cavalry issue as evidenced by the U.S. stamp on frame. It was inspected by Renaldo A. Carr, his inspection stamps (R.A.C.) can be found on the cylinder, under barrel, and frame. Trigger guard is stamped with a "K", backstrap stamped "K". Cartouche no longer visible on walnut grips. The barrel and cylinder retain a smooth blue-brown-plum finish, as does trigger guard and backstrap. Case colors on frame have darkened. This is an early screw-in frame. Walnut grips are slightly shy to metal with a chip to the left front toe. Four perfect clicks. Cylinder indexes, locks up like a vault. Mint bore. Screw heads are excellent. Left grip has three kill notches. One of the cylinder flats has some light corrosion. The barrel and cylinder have the proof "P". Finish is slightly splotchy, and may have had added cold blue. Hammer colors have darkened. Extremely tight and clean cavalry model as issued during the Indian wars. 4,000.00 - 8,000.00

LOT - 431

**431 - **COLT THUNDERER DOUBLE ACTION REVOLVER.**
Serial No. 125313. Standard revolver was manufactured in 1901. Standard features include a 4-1/2" barrel, blue and case colored finish, six shot, double action, .41 long Colt caliber, and gutta percha grips. The entire gun has been reblued, including frame, and retains approximately 75% of that finish. Grips are very good with no cracks or chips, but are worn overall smooth. Double action works fine. Very good bore with some strong rifling. 200.00 - 400.00

LOT - 432

**432 - **S&W .38 SAFETY HAMMERLESS 4TH MODEL REVOLVER.**
Serial No. 210009. These were manufactured from 1898 to 1907. It sports the scarcer 5" barrel. Standard features include six shot, double action, factory nickel, blued trigger guard, case colored trigger, after market vintage pearl grips, hammerless action, and top break. The gun remains in superb all original condition. Aside from some slight muzzle wear, a few serrated lines about the circumference of the cylinder, and some storage specks, gun retains approximately 95% of the original nickel finish. Pearl grips are excellent, albeit a little undersized. Trigger guard has about 50% blue with traces of color on trigger. Mint action. Very good strong bore with some minor corrosion. 200.00 - 500.00

LOT - 433

**433 - **SCARCE NICKEL COLT NEW SERVICE REVOLVER.**
Serial No. 19853. This revolver was manufactured in 1908. Standard features include a 7-1/2" barrel, double action, six shot, chambered for the .38-40 cartridge, with nickel finish and hard rubber grips. It appears as if this revolver had an early renickel application, but the markings remain very strong. The barrel has 1/4" of muzzle wear to finish. Frame has some minor freckling, as does the cylinder. We can safely say the entire gun retains 85% of the reapplied nickel finish. The hard rubber grips are near mint. Nice clean bore. Solid lock up. Fine first style New Service revolver. 600.00 - 900.00

LOT - 434

**434 - **NEAR NEW ITHACA (COLT) MODEL 1911 PISTOL.**
Serial No. 1458069. This is a standard World War II 1911 semi-automatic pistol manufactured by Ithaca in 1943. Features a 5" barrel, parkerized finish, semi-automatic, chambered for the .45 ACP cartridge, and plastic grips. Top of the slide is stamped with the proof "P". Barrel was manufactured by High Standard, so stamped on left lug. It has a seven grooved serrated hammer; and grooved backstrap, slide stop, and safety. Grips were manufactured by Keyes Fiber Co. and stamped with a star inside. They are a type three first variation with no reinforcing ring. The Ordinance wheel is stamped on the right side back of frame and was stamped after the guns were finished. This was the final inspection and you can see some of the raw metal showing through, which indicates this gun has not been refinished. Right side of frame is stamped "United States Property" with serial number as well as "M 1911 A1 U.S. Army". Right front trigger bow has inspector mark of Inspector No. 4. Left side of frame has the "F.J.A." inspector mark for Frank J. Atwood (1942 - 1946). Left side of frame also has the proof "P". Trigger is the short checkered version. Mint bore and action. Aside from a couple of minute storage marks, the gun retains virtually 99% of its original factory parkerized war-time finish. One of the nicest Ithaca 1911s we have seen. 2,000.00 - 3,500.00

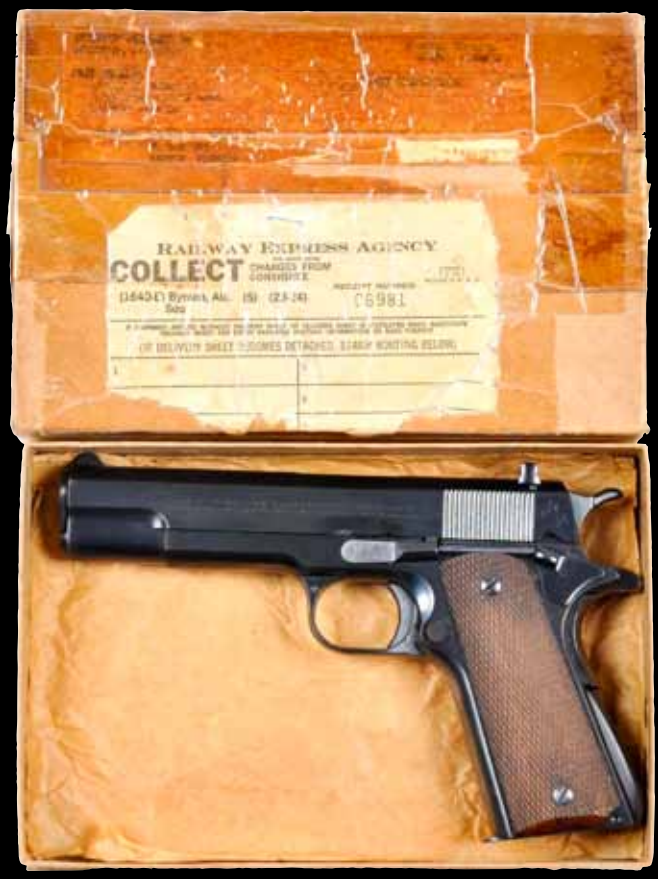
**435 - **COLT MODEL 1911 A1 U.S. ARMY PISTOL.**
Serial No. 918228. Offered is a standard Colt Model 1911 U.S. Army semi-automatic .45 ACP pistol. This pistol was manufactured in 1943. It is a standard military issue with the parkerized finish. Right side of slide is stamped "M1911 A1 U.S. Army", left side of slide has the patent dates. Left side of frame has the "G.H.D." inspector and proof "P". Trigger guard has "R" inspector with the "VP" proof. Right side of frame has "United State Property" and "M1911 A1 US Army" with Ordinance wheel (light) and "80" stamped on trigger guard. G.H.D. stands for for Guy H. Drewry (June 1942 to July 1945). The crossed cannons were used from October 1942. The stocks are third variation Coltwood variety with reinforcing ring stamped "10". All small parts are checkered. Bore and action are fine. Has a standard blued magazine stamped "C-L". The barrel is stamped "Colt .45 Auto" with a proof "P" at breach base and "G" on bottom. Inside slide is stamped with a "G". The slide has approximately 95% original finish with high edge wear. Inside of frame is stamped "M9" and retains approximately 80% original finish with some finish loss and minor pitting on the bottom of trigger guard. Minor corrosion at bottom of frame. Nice example of a Colt World War II military pistol. 1,600.00 - 2,800.00



**436 - **INCREDIBLE BOXED COLT 1911 ACE (US COAST GUARD)**

Serial No. 6467. One of the greatest rarities in the 1911 Colt collecting genre, this is arguably the Holy Grail in that market. It is basically your standard pre-war Colt Model 1911 Ace .22 caliber semi-automatic pistol that was purchased and specially stamped for the U.S. Coast Guard. Standard features include 5" barrel blued finish, checkered wood grips, and .22 caliber semi-automatic. According to the Colt book, this was a commercial Model Ace manufactured in 1936. It has all commercial features except for the addition of "U.S. Coast Guard" stamped on the front right side of frame. Gun literally does not appear to have ever been used, exhibits 99.99% of the original finish. All correct parts for a Colt Commercial Ace including the magazine. There is not even a visible hint of muzzle wear, nor is there even the slightest trace of a usual drag line. Gun has a mint bore and action. It rests in its original manila pasteboard case with a Railway Express shipping label. There are several estimates as to how many of these were made for the U.S. Coast Guard training team. According to Clawson's book this gun falls into the serial number range (6160-6467) shipped to the Commanding Officer of the U.S. Coast Guard Depot in Curtis Bay, Maryland in a shipment of 105 guns. By adding up the totals of the shipment quantities of 712 spanning the period of July 1st, 1931 to July 1st, 1936. Of those, it would be impossible to find a finer example. If your desire to own the very best, this pistol should fit the bill. 16,000.00 - 25,000.00

Serial No. 250200-C. This lot and the following lot consist of two consecutively numbered Commercial Colt Model 1911 A1 semi-automatic pistols. Neither show any signs of having ever been fired. Both guns come in the original hinged Colt box with gold and green end label. Box has the original wax paper, original cleaning rod, and original instructions. The boxes are mis-numbered at the bottom and probably were done at the shop when they were new. Both guns were manufactured in 1951. Standard features include a 5" barrel, blued finish, Colt logo plastic original grips and chambered for the .45 ACP cartridge. Each gun has a minor storage mark from being in the box, but would rate 99% unfired condition. This is the only set of consecutive number early post-war pistols that this writer has ever seen or heard of. Neither has a drag line. Bore, action, and grips are mint. This lot is being sold individually but consecutively with the following lot. 2,500.00 - 4,500.00

**446 - **COLT MODEL 1911 COMMERCIAL PISTOL (1917).**
Serial No. C96021. Offered is a very high condition original Colt Model 1911 Commercial Model semi-automatic .45 ACP. This is a standard model with a 5" barrel, blued finish, and diamond checkered walnut grips. The serial number places the manufacture date to 1917. Given that America entered the war in 1917, the majority of the production run of Colt 1911s were earmarked for the military making the civilian models rather scarce, especially in such fine condition. The gun has all of the original parts, which includes the checkered small parts, long smooth trigger, short wide spur hammer, and two-toned lanyard loop magazine. Original barrel. There is also an "N", "S", and "P" stamped on the inside of the frame. As to finish, the slide retains fully 96% of the original high polish Colt factory blue, with just some of the usual minor high edge wear. The frame also retains approximately 95% of the original factory blue, thinning on the front grip strap. Original diamond checkered grips are in superb condition. Bore is mint. In addition, the pistol comes with an original Audley thumb release holster. This gun has been completely disassembled and examined by noted 1911 expert Eric Gustafson who has confirmed that this gun is completely original. 1,500.00 - 2,500.00

**464 - 1766 CHARLEVILLE MUSKET.**
Introduced initially in 1763, the new French Infantry Musket underwent a number of changes 3 years later in 1766 including lightening the musket, reducing the size of the lock, and utilizing the button-head ramrod design. The French main arsenal producing the 1766 model was the one at Charleville in North Eastern France in the Champagne-Ardenne region. Tens of thousands of this musket were made for the royal army of France, however this was not its claim to fame. In 1776, with the revolution against the British under way, the United States were desperate for muskets. That spring Congress sent Silas Deane to France to plead for assistance in the form of arms, equipment, and financing. Looking to even the score against Britain, France came to the Americans side with shiploads of muskets. Because we were not officially at war with Britain until 1778, a fake corporation had to be set up to mask the French government's direct involvement. In addition, ship log destinations were falsified to hide the fact the muskets were being shipped to American ports. Because of the British presence on the high seas, some French ships had to sail to the West Indies, drop off their cargo, and American vessels then picked the muskets up. In studying the numerous surviving muskets of French manufacture but with U.S. surcharge markings, the vast majority are the 1766 Model with the button style ramrod. Contrary to popular belief, the flared trumpet style ramrod was not used with the 1766 model. So dominant was the presence of the 1766 model in the American forces, that when U.S. began to mass manufacture its own army muskets, the first model off the arsenal at Springfield in 1795 was an exact copy of the 1766 Charleville. While the 1777 model began to be issued to French Regiments almost immediately, the 1766 model continued to be carried by some French soldiers all the way up into the time of Napoleon. This 1766 Charleville Infantry Musket has a .69 caliber, 44-1/2" long, round barrel that is made of tempered seamless carbon steel with a threaded breech plug. Iron furniture. Lock is stamped "Charleville" with a "D" and a star. It has the heart shaped hammer cut out. Original ramrod. All metal is a dark brown patina. Wood stock is excellent with no cracks or chips. Left side of stock has a "D" stamped into it. The lock is made with strong durable springs and has a case-hardened frizzen cover (hammer) that throws good sparks. The Charlieville musket's total length is 60" and weighs 10 pounds. Dirty bore needs cleaning. Extremely nice example of a musket that was widely used in the Revolution.

**472 - DELUXE WINCHESTER MODEL 1885 S.S. HIGH WALL RIFLE**

NSV This is an interesting high wall with many deluxe features and condition, but is a bit of a conundrum. Features include a 30" part octagon barrel, chambered for the .32-40 cartridge and retains 95% or better original factory blue. It has a Winchester globe front sight and two leaf folding rear sight. Stocks are deluxe fire-grain walnut, checkered, pistol grip, ebony inlay on both fore end and grip, nickel Swiss buttplate, and rollover cheek piece. The receiver retains approximately 50% bright original case colors. It is equipped with a long range tang rear sight. Bottom of barrel is marked "No. 3". Strong clean bore and perfect action. We can find no serial number on this gun, not on lower tang where it should be, not inside. In taking off the buttstock we found No. 684, in doing so we can see that there is a crack running through the pistol grip that has been repaired. Without a serial number we cannot check the configuration. The barrel has perfect Winchester marks and the patent date is on the lower tang. It is an extremely handsome high condition rifle as it sits, and a little expert stock repair would be beneficial. It has a set trigger. There are no PW stamps on gun which indicates a pre-1905 date of manufacture. It is our guess that the lower tang was replaced or the gun was either restocked or custom. Everything is contemporary to gun. The repaired crack is solid. This would make a handsome shooting rifle. 2,000.00 - 4,000.00

Serial No. 27747. Rifle was manufactured in 1882. Standard rifle features a 28" round barrel, full magazine, rifle butt, blued finish and walnut stock. Caliber is not marked on barrel or carrier, which would indicate it is chambered for the .45-75 standard cartridge. This rifle is in basic relic condition. It is a mix of rust, patina and splotchy metal. Very good wood. Working order. Visible rifling but worn. 500.00 - 1,000.00

**475 - FINE SPRINGFIELD OFFICERS MODEL 1875 RIFLE.**
Between July of 1875 and June of 1885 a total of approximately 500 special Officers Model trapdoor Springfields were manufactured, none of which had serial numbers, and orders were restricted to commissioned military officers only. Each were special ordered and the list of customers reads like a "Who's Who" of Western history. Because they were not serial numbered it is impossible to know which Western personage owned this particular rifle. They are amongst the most highly sought after U.S. military rifles every manufactured, and given their historic lineage, time factor, and location of which these were shipped, makes any fine condition all original surviving example a true prize in a military or Western collection. Features include 26" full round barrel; blued finish; case colored frame and breach block; beautiful engraving on sideplate, hammer, release, breach block, frame, tang, trigger guard, buttplate, and barrel band. The ornate engraved pewter nose cap is set into American walnut that is coarsely checkered. There is an oak ramrod with a silver finial. Sights include folding globe front, a military style folding rear, and a long range tang. Barrel is stamped with the "VP" eagle proof. Block is stamped "U.S. Model 1873". Sideplate is stamped "U.S. Springfield 1873". Top of buttplate is stamped "U.S.". Barrel band is stamped with a "U". Gun is 100% original in all respects. The barrel retains virtually all of the soft blue finish starting to patina. Traces of color on breach block. Wood is excellent with no cracks or chips, albeit the fore arm checkering does show some use. The original cleaning rod is excellent. Action is perfect. Strong clean bore. Simply a beautiful example of an early Second Model Officer's rifle. Chambered for the .45 - .70 Govt. cartridge. 10,000.00 - 20,000.00

**476 - BRILLIANT WINCHESTER MOD 1886 LEVER ACTION RIFLE**

Serial No. 46978. Rifle was shipped from the factory February 20th, 1886 as a rifle with a 26" full octagon barrel, full magazine, and chambered for the .45-70 cartridge. Features the case colored frame, lever, hammer, and buttplate with blued barrel and tube. Sights are standard folding rear and blade front. Gun remains in excellent condition. The barrel and tube retains approximately 80-90% strong original blue with some minor freckling. The frame, lever, hammer, and nose cap retains at least 85% of the brillaint case colors; toning on bottom. Walnut stocks are excellent with no cracks or chips. On the rear stock previous owner has carved his name "H. Patrick 1915" with five kill marks on the right side and "H. Patrick" on the left side. Wood has usual hunting bumps and bruises, but the rifle remains in excellent all original condition. 4,500.00 - 7,500.00

**478 - FINE WINCHESTER MOD 1886 LEVER ACTION RIFLE.**
Serial No. 4082. Offered is a stunning high condition Winchester Model 1886 rifle. Features a 26" full octagon barrel, full magazine, rifle butt, chambered in the .45-70 Winchester cartridge. The barrel retains 95% of the original factory blue finish with some light freckling. The magazine tube is about 70% blue mixing with soft patina. The frame, lever, and hammer retain approximately 80% case colors, most brilliant. Loading gate retains virtually all of the high polish factory blue. Walnut stocks are excellent, proud to metal, and have never been refinished. There is even some traces of case colors on the buttplate. The bore is gem-mint. Action is perfect. Manufactured in 1891. An extremely handsome case colored 86 in a popular caliber. Factory letter states that this rifle left the factory as a .40-82 and was rechambered for the .45-70, as you can still see the faint outline of the .40-82 underneath. 4,500.00 - 6,500.00

**479 - **SCARCE WINCHESTER MODEL 1886 RIFLE IN .50 EXP.**

Serial No. 156081A. One of the more desirable and elusive calibers offered in the Model 1886 Winchester model was that of the .50-110 Express. This particular example has got to be one of the last manufactured examples in that it was shipped from the warehouse on December 19th, 1921, using up old parts or custom ordered as they technically dropped this caliber from line in 1919. No other information appears on the Winchester research letter. Rifle features a 26" full octagon barrel, full magazine, blued finish, walnut stocks, and has the desirable Slidin' Lyman 21 rear sight. Rifle remains in excellent condition. Barrel has the period correct stamp on left flat with "PW" on top barrel flat and stamped "50-EX" on left side. Barrel and tube retains approximately 85-90% original blue with high edge wear and minor freckling. Rear sight slot has a filler. Left side of the frame retains approximately 80% blue, while the right side has approximately 70%. Bottom of frame and the balance are a soft brown patina. Original walnut stocks are excellent, proud to metal, with some dark areas from oil. Equipped with the rare close double set triggers. Strong clean near mint bore and perfect action. Extremely fine condition big .50. 15,000.00 - 25,000.00

**480 - MARTIAL HENRY LEVER ACT. RIFLE (DOCUMENTED).**
Serial No. 3846. According to Wylies book on serial numbers, serial No. 3846 was issued to Company B of the First D.C. Cavalry. This unit participated in many of the major battles during the entire Civil War, that included the capture of John Mosby, the Battle of Gettysburg in 1863, Spotsylvania in 1864, Cold Harbor in 1865, and present at Appomattox at Lee's surrender. The rifle itself is in fine condition. Standard features include 24" octagon barrel (blued), full magazine (blued), brass frame, and walnut stock. The barrel and tube are a smooth brown patina with no pitting (extremely clean). Factory stamps are perfect. The brass frame shows no signs of having ever been cleaned or polished. Right side of the brass frame is etched "P.M.C.". The hammer and lever are basically a grey-brown patina. Stocks are excellent with original finish and no cracks or chips. There is a military cartouche in the right side of the stock, of which the oval can be seen but is faint. The wood is a hair shy at the toe of the curved brass buttplate. Action is perfect. Has a brass ring in the loading tube. Folding ladder rear sight. Nice strong clean bore. An extremely fine all original Martial Henry with unit history that fought in some of the most famous battles of the Civil War. Cal. .44 Rifle. 25,000.00 - 45,000.00

**481 - WINCHESTER MOD. 1894 RIFLE SER. NO. 196 HIGH COND.**

Serial No. 196. First model, is probably one of the finest condition lowest serial numbered Winchester Model 1894 rifles in this condition in private hands. The factory letter states that this rifle was manufactured October 24th, 1894 as an octagon barrel rifle (26") in caliber .38-55 with a plain trigger. This is a standard First Model in all respects with the ten o'clock screw. Gun is 100% original and has never been touched. All screw heads are perfect. The stocks are as new near mint with all original finish. Not a single dent or impression anywhere. The barrel and tube retains approximately 97% original factory blue with some high edge wear on muzzle and tube. No freckling. The frame and bolt retain approximately the same amount of high polish factory blue. Still mirror bright with some minor toning showing through the blue finish. The loading gate still has approximately 80% of its original fire blue finish. Hammer retains all the brilliant colors on the back, generous amounts on sides, and has the first Model Knurling. Lever retains traces of colors on sides, basically patina on bottom, with old dried grease at intersection. It has standard Winchester sporting rear sight, and flip up front sight with brass globe. The action is like new. Strong clean bore with minor frosting. Nose cap retains flashes of blue but is basically turning a soft patina. There is no obvious carry wear on either the top or bottom of the frame. There is one little pinhead size speck of freckling on bottom left of frame. The extractor has traces of the fire blue. Probably as close to mint you will ever find one of these early Model 1894s made within the first two months of production. 15,000.00 - 25,000.00

**482 - **WINCHESTER MODEL 1895 LEVER ACTION .405 RIFLE.**
Serial No. 58294. According to the factory letter, this rifle was shipped on August 6th, 1907 as a standard .405 caliber lever action rifle. There is little need to extol the virtues and desirability on the 1895 rifle chambered for the .405 caliber, nor is it necessary to go into the historical aspects of the famous personages associated with this rifle and caliber. It is a standard rifle in all respects with a 24" barrel, blued finish, rifle butt and walnut stock. Barrel retains approximately 75% of the original factory blue with thinning in high areas. Gun has sporting sights. Frame is basically smooth patina with blue in the recesses and on bolt. Wood is very good to excellent, proud to metal, with the usual minor hunting dings. Gun is completely honest and untouched. Screwheads are perfect. Gun has not been messed with in any way. Bore is strong and clean. 3,000.00 - 6,000.00

**486 - **FINE FACTORY ENGRAVED SAVAGE MODEL 1899 RIFLE.**
Serial No. 18080. This deluxe rifle was manufactured in 1901. Standard features include a 26" round barrel, blued finish, walnut stocks and shotgun butt. This rifle is a deluxe factory engraved offering. It is chambered for the .303 Savage cartridge. British proofed on both the frame and barrel. Has a two leaf folding rear sight. Gun retains approximately 95% original high polish factory blue with a few minor blemishes on bottom of barrel. The finely engraved frame retains most of its original factory blue with some minor high edge wear. Walnut stocks are beautifully checkered, still sharp, with most of the original varnish with the typical light hairline at wrist and frame junction. Sling eyes installed and a small plug where a sling eye was removed. Equipped with a tang rear sight. Strong bore and perfect action. Extremely handsome rifle seldom seen with the British proof marks. 800.00 - 1,500.00

**LOT - 487**

**487 - **COLT LIGHTNING SLIDE ACTION SMALL FRAME RIFLE.**
Serial No. 72974. This rifle was manufactured in 1902. Standard features include a 24" octagon barrel, blued finish, walnut stock, smooth shotgun buttplate, pump action, and chambered for the .22 short and long rimfire. The entire rifle has been lovingly restored and retains 99% of the reapplied finish. Factory stamps are strong. Revarnished wood is near mint and fits perfectly to the metal. Bore shows rifling but is washed out. There are four extra holes on the left side of frame that have filler screws. Lovely little rifle in perfect working order. 400.00 - 800.00

**LOT - 488**

**492 - **PRE-64 WINCHESTER MODEL 1894 CARBINE.**
Serial No. 2154337. This carbine was manufactured in 1956 and is standard in all respects. Features include 20" barrel, blued finish, lever action, sporting sights, shotgun buttplate and chambered for the .30-30 cartridge. There is a hint of wear at the muzzle otherwise the rifle retains 98% of the original factory blue finish. The wood is very good with no cracks or chips and is proud to the metal, but it does have some scars, bruises, and scratches. With a little attention to the stocks, this rifle would be a beauty. There is some light wear on the barrel bands. 400.00 - 700.00

LOT - 493

**493 - ** RARE WINCHESTER MODEL 70 CARBINE .300 SAVAGE.**
Serial No. 175238. The manufacturing date is 1951. The 300 savage cartridge chambered in the pre '64 model 70 is amongst the scarcest of any produced. In the factory carbine version, the number produced is reduced proportionality leaving collectors on the constant hunt for the rarest of the rare. Add that rarity factor to the incredible condition of this carbine and those existing numbers fall to virtually non existent. Standard features include 20" barrels, bolt action and checkered walnut stock. Overall, gun retains fully 99% of the beautiful factory rust blue. Near mint stocks with sharp as new checkering with just a couple minor impressions. Action and bore are mint. Has original Winchester sling swivels. Original sporting sights with front hood. Rare. Enough to get the blood racing in any model 70 aficionado. Only 302 were produced from 1947 - 1954.

**519 - PRESENTATION BELGIUM SINGLE SHOT RIFLE.**
Serial No. 114. This rifle is inscribed on the buttplate "Given to Frank Tanner from Chaser Oil Co.", bottom line cannot be read. This rifle comes with a book "Time Life Old West" that has a story about Harry Sinclair and Frank Tanner which is the formation of the old Sinclair gasoline company. The engraving on the buttplate looks old and original, but we can make no garauntees as to the background of this rifle. The rifle itself is a Belgium made single shot in .30 caliber with a 30" full octagon barrel, decent rifling, fixed rear sight. Left side of the stock is inlaid with a three-dimensional pony. Right side of stock is decorated with a braid, American flag at wrist, and a wreath on the right side of stock. Stock is very good with sharp checkering but does have a crack at the wrist on the right side. Barrel is basically a blue-brown patina. Action works fine. Double set triggers. Set needs adjustment. Comes with what looks like a home-made sheath with the initials "F.T." stamped on top. Sheath does not have the age of the rifle in our opinion. 200.00 - 500.00

**573 - COLT BREVETTE MOD 1851 NAVY PERCUSSION REVOLVER.**
Serial No. 177155. This is one of a myriad of Colt copies made in Europe in the 1850's and 1860's. Many of these so called "Brevette" models are stamped with the makers of the firearm, while this example is an obvious attempt to play off the Colt name and not have to pay any royalties. It has all Colt markings but they are not identical to those used by Colt manufacturing. It is a standard Navy in al respects with 7-1/2" octagon barrel, six shot, .36 caliber single action percussion system. Has all matching numbers except wedge is not marked. Some one erroneously stamped .44 caliber on the trigger guard. Sports a pair of one piece walnut grips that retain portions of the original varnish, are a little shy to metal, and has a small chip at left front toe and right front face at frame. The brass has mellowed to a beautiful mustard color while the balance is a dark chocolate patina. Timing is a little off but does operate. Bore is strong with minor corrosion. These guns were widely used by the Confederates during the Civil War as brought in from Europe by the blockade runners. 700.00 - 1,000.00

LOT - 574

**574 - BLACK POWDER COLT S.A.A. REVOLVER.**
Serial No. 83742. Offered is a fine Colt Single Action Army that was shipped with 50 guns on October 10, 1882 to Wexell & Degress offices in Mexico City and New York. Factory letter lists the gun as a .45 Colt caliber, barrel length not listed, shipped blue with rubber grips. The gun sports a 5-1/2" barrel and is nickel plated with vintage pearl grips. All the markings are perfect which would indicate, given its shipment to Mexico, that it was dealer plated and the pearl grips fitted at the time. The barrel retains approximately 75% original factory nickel, turned brown patina at the muzzle and wear to the left side. The ejector housing retains almost all of the nickel, as does the cyclinder. The frame retains approximately 60% nickel, with the balance flaked to a smooth grey patina. The pearl grips are well fitted, vintage to the gun, and have a couple of only minor chips. All four Colt clicks, locks up perfectly. All matching numbers. Strong clean bore. Really fine black powder Colt with South of the Border history. A gun that was there during the wildest times on the Western Mexico-Texas border. Wexell and Degress office in New York was like Tiffany's. Upgrading colts for the border frontier was common place and as good as any factory work. 3,500.00 - 5,500.00

**577 - HIGH CONDITION REMINGTON MODEL 1875 S.A. REVOLVER**
Serial No. 934. This pistol was a prime competitor of the Colt Single Action Army in the period from 1875 to 1889. It is probably most noted for being the favorite hand gun of Frank James. This example is in spectacular condition retaining fully 97% of the original factory nickel finish. There is a rub on the ejector gate, a bit of high edge wear on cylinder, and a couple of minor freckles. Aside from that, the gun remains in near pristine condition. The caliber is .44 and is stamped on the rear trigger bow. Sports a pair of fine aged ivory grips, with the age stress grain and mellow tones clearly evident. The bore is strong and clean and action is tight as new. Factory stampings are perfect. Features a 7-1/2" barrel, six shot, and single action. This gun would be very hard to improve upon. 4,500.00 - 7,500.00

LOT - 578

**578 - **HIGH CONDITION COLT MODEL 1877 REVOLVER.**
Serial No. 119787. This revolver was manufactured in 1900. Standard features include 4-1/2" barrel, double action, six shot, case colored frame, balance blued, with Colt gutta percha grips, and chambered for the .38 long Colt cartridge. It remains in spectacular all original condition. there is a hint of thinness on the left side at muzzle as well as a hint of thinning of the high polish blue on the cylinder and toning a bit on half the back strap. The case colors are brilliant. All the screws retain virtually 100% of the high polish fire blue, as does the trigger and hammer. Bore and grips are mint. Action is as new. This example is about as nice as they come and would be hard to improve upon. Worthy of an original box. This gun is incredible. 2,500.00 - 4,500.00

LOT - 579

**579 - 1880'S BELGIUM DOUBLE ACTION REVOLVER.**
Serial No. 10628. Manufactured by D.D. Levaux, it is one of the finest quality revolvers manufactured in Belgium, equal in craftsmanship to any English revolver of the era. It is chambered to fire the .38 centerfire cartridge (.38 long Colt chambers). Features a 5" octagon barrel, double action, blued finish, checkered walnut grips and lanyard ring. Top strap is stamped "W. Haw". Gun retains approximately 30% of the brilliant but flaking original factory blue finish with the balance a smooth patina. Walnut grips are excellent with sharp checkering. Function is flawless. Bore is strong and clean. This revolver has the look of an Adam's or Tranter revolver of the era. Lovely antique sidearm. 700.00 - 1,200.00

**592 - **COLT 2ND GEN. S.A.A. REVOLVER (CONS. NO.'S.).**
Serial No. 5072SA. This Colt Single Action Army Revolver is consecutively numbered to the previous lot. It was manufactured in 1956, the first year of production for the Second Generation Models. Standard features include a 7-1/2" barrel, blued finish with case colored frame, six shot, single action, chambered for the .38 Special cartridge, with a pair of smooth ivory-type grips. The barrel is thinning a bit on sides with approximately 90% original blue and cylinder is thinning on high areas with multiple serration lines around the circumference. Case colors are brilliant and screws untouched. The grip straps are a blue-grey patina. Clean bore. Perfect action. 1,000.00 - 1,600.00

**593 - **ENGRAVED & PLATED ASTRA BROOMHANDLE PISTOL.**

Serial No. 2145. Offered is a beautiful Broomhandle semi-automatic pistol chambered for the 7.63mm cartridge. **597 - EARLY S&W NO. 3 NAVY D.A. .44 REVOLVER.**
Serial No. 886. This revolver is referred to as the .44 Double Action Frontier, as it has the cylinder that measures 1-9/16" as opposed to the 1-7/16" of the .44 Russian. Given the popularity of the .44-40, that makes this a very popular Western revolver. The low serial number places the production of this revolver to approximately 1886 to 1887. Standard features include a 5" barrel, six shot, double action, .44-40 cartridge, nickel plated finish, with blued trigger guard, case colored hammer and trigger, and Smith & Wesson monogrammed hard rubber grips. This gun remains in fine condition. Barrel retains most of the original nickel finish on both sides of the rib on bottom, while the sides of the barrel are basically gun metal grey. The frame retains approximately 30-40% original nickel with the balance turned gun metal grey with some minor freckling. Cylinder retains approximately 40% original nickel with the balance flaked to a dark gun metal grey as well. The blued trigger guard has flashes of factory finish. Traces of color on hammer and trigger. Excellent original grips that fit flush to the metal. Lock up is perfect in both single and double action mode. Fine strong bore. Matching serial numbers on cylinder and release. Overall, a fine, tight, early Smith Frontier. 900.00 - 1,500.00

LOT - 598

**598 - INCREDIBLE 2-1/2" COLT LIGHTNING D.A. REVOLVER.**
Serial No. 38452. This fine revolver has all the more desirable features including scarce 2-1/2" barrel, etched panel, nickel plated, gutta percha grips, chambered for the .38 long Colt cartridge. According to the factory letter this gun was shipped on September 26th, 1882 in a shipment of ten guns to B. Kittredge Co. in Cincinnati. They are the company credited with coining the terminology used by collectors today in the first advertisements titling this revolver "The Lightning". Factory letter confirms the gun's current configuration. Manufactured in 1882. The etched panel is near perfect, overall the gun retains 95% or better of the original factory nickel finish with a hint of patina on grip straps and a couple of minor spots. Back of the hammer retains all of the fire blue. Action works fine. Bore is mint. There is some flaking on the face of the cylinder, but shows no signs of having been fired (i.e. no powder burn). Extremely fine and scarce Colt Lightning. 3,000.00 - 5,000.00

LOT - 599

It has the Colt Python style wide spur hammer. A trigger shoe has been added. There is a run to the finish on the trigger guard, light muzzle wear, high edge cylinder wear, and a light drag line. Overall 98% original factory finish. Mint grips, bore, and action. Comes in the original Colt cardboard box numbered on bottom, with the original numbered test target, warranty card, and handling instructions. 500.00 - 1,000.00

LOT - 624

**624 - **COLT SINGLE ACTION FRONTIER SCOUT REVOLVER.**
Serial No. 107550. This fine little revolver was manufactured in the first year of production, 1958. This is a rather scarce brushed aluminum frame, trigger guard and backstrap that features a blued 4-3/4" barrel, six shot, blued cylinder, single action, and chambered for the .22 LR cartridge. Aside from a hint of muzzle wear and a barely perceptible drag line, the gun remains in near new condition. Function and bore are fine. Comes in a vintage Buchenier holster with a "Handling the Handgun" brochure. 300.00 - 600.00

LOT - 625

**625 - **BOXED HI-STANDARD SPORT KING SEMI-AUTO PISTOL.**
Serial No. 1823223. Standard features include 6-3/4" barrel, blued finish, semi-automatic, and monogram brown plastic grips. There is a hint of wear at end of barrel, 1" from muzzle. Otherwise gun remains in near new condition with some slight corrosion on trigger. Mint bore and action. Comes in an excellent original box. 300.00 - 600.00

LOT - 626

**626 - **BOXED COLT DELTA ELITE 10MM PISTOL.**
Serial No. DS08295. This gun is as new in its original box. Standard features include 5" barrel, stainless finish, chambered for the 10mm cartridge. Comes with the original Colt box, liner, and all paperwork. This is an interesting gun in that the original Colt paperwork attests that this gun was made for test and evaluation by the private guard of the Prince of Abu Dhabi. It does not appear that they actually tested the gun, as it is in as new condition with the original hang tag and all paperwork. 800.00 - 1,500.00

LOT - 627

**627 - EARLY 1850'S W.L. HUDSON HEAVY BENCH/SNIPER RIFLE.**
Manufactured by Hudson in Cincinnati, Ohio in the early 1850's or 60's, these heavy bench rifles were extremely popular with snipers from both sides during the Civil War. Features include single shot percussion, side lock, .54 caliber in the grooves, with a .32" heavy octagon barrel, and false muzzle. Barrel and side plate are both maker stamped. Strong but dirty bore. Lollipop long range rear sight base with no sight. Rear sight blank empty. Very good stocks with no cracks or major chips. Action works fine. Set trigger works fine. Metal is overall a blue-brown patina with iron mounts. Fine early example. 800.00 - 1,200.00

LOT - 628

**628 - RELIC CONDITION WINCHESTER MODEL 1866 YELLOW BOY.**
Serial No. 18. The serial number is on the inside of the tang and appears to be 1811, but we do not want to take the stock off, as it is too brittle. It is a standard carbine with a 20" barrel, full magazine, brass frame, walnut stocks, chambered for the .44 rimfire cartridge. As to condition, the barrel had cold blue wiped on at one time with pitting underneath. The tube is brown and pitted, as are the rings. Saddle ring in present. Wood is poor, chipped, cracked, and weathered. Poor bore. Operational. Has a replaced rear sight. Side plates do not match. There is a big chuck missing at the right wrist, a chunk of wood missing at toe and sections of wood missing on fore arm. Basically this is an old West wall-hanger that is valued more as a piece of Western art than it is a surviving rifle. 800.00 - 1,800.00

LOT - 629

**629 - FINE FLINTLOCK KENTUCKY/PENNSYLVANIA LONG RIFLE.**
We cannot find any makers name on the barrel, but experts indicate Jacob Sell as the gunsmith responsible. Side lock not marked. Features include a 45-1/2" part octagon barrel, carved stock with cheek piece, single trigger, flintlock ignition, brass buttplate, ramrod, and .50 caliber. Light but visible rifling. There is a crack in the stock at forward area of trigger guard with repair. Brass is toned. Has a single leaf rear sight. Nice early example of American full stock. This is a high quality mid 19th century full stock attributed to the talents of Jacob Sell. 2,000.00 - 3,500.00

**LOT - 630**

**630 - BURNSIDE MODEL 1864 SADDLE RING CARBINE.**
Serial No. 3953. Standard fifth model saddle ring carbine popular during the Civil War. Manufactured 1863 to 1865. Standard features include a 22" round barrel, single shot, .54 caliber percussion breech loader, walnut stocks, and sling swivel in butt. Gun has matching serial numbers. Barrel has turned a dark blue-brown patina with freckling. Case colors have darkened. Has fire blue on lever. Two strong cartouches on left side of stock. Original nipple. Stocks are very good with no cracks or chips but several war dents. Fine action and strong clean bore with light frosting. Fine example of a war veteran. 1,000.00 - 1,500.00

**LOT - 631**

**631 - WINCHESTER MODEL 1873 MUSKET.**
Serial No. 481909B. This musket was manufactured in 1895. Standard features include a 30" round barrel, lever action, three barrel bands, military rear sight, blued finish, walnut stock, carbine buttplate, sling swivels and chambered for the .44-40 Winchester cartridge. Has strong factory stamp on barrel. The caliber is marked at breach and on lifter. There is flashes of blue on the loading gate and a couple of recesses on frame, but gun is basically a smooth brown patina with some scattered roughness. Walnut stocks are very good with no cracks or chips, proud to metal, with usual dings found on this model. Bore is very good with some strong rifling but has scattered roughness. Fine working order. 800.00 - 1,200.00

**LOT - 632**

**632 - BEAUTIFUL WINCHESTER 1885 DELUXE HIGH WALL RIFLE.**
Serial No. 65885. This Model 1885 single shot rifle was manufactured in 1893. Factory letter states that it was shipped on February 2nd, 1894 and was originally shipped with a Swiss butt, mid-range/Vernier sights, and no rear sight slot. These changes look factory but no work order. All other features as listed. It features a 30" part round barrel, single shot, falling block, deluxe checkered pistol grip walnut stocks, and chambered in the .38-55 cartridge. Barrel retains approximately 95% of the original high polish factory blue thinning a bit on the last inch of the barrel. The deluxe checkered walnut stocks have the ebony inset, beautiful grain, most of the original lacquer, sharp checkering, and a hole in butt for sling (easily repaired). Has an unusual steel serrated buttplate. The frame is basically nickeled out with hints of color in the recesses. Has a set trigger and sporting sights. Perfect action. Strong bore with some frosting. Really lovely High Wall deluxe in a popular scarce caliber for this gun. 4,000.00 - 6,000.00

**633 - SHARPS CONV. HEAVY BARREL BIG 50 BUFFALO RIFLE.**
Serial No. 37082. At the end of the Civil War, the government had a surplus of Model 1859 carbines on hand, this was prior to the introduction to the Model 1874 in 1871. Utilizing a combination of these surplus carbines and newly made Sharps parts, a number of factory (and outside-the-factory) converted these guns for sporting use. This is one of those conversions. The buttstock and frame are from an 1859 carbine. Stock is in excellent condition and still has three very sharp cartouches on the left side. Right side still has the patchbox. Bore is extremely clean with very strong rifling. No cracks in wood either in stock or forearm. The screws still exhibit generous amounts of fire blue with traces of colors on buttplate. The frame has been converted from percussion to centerfire and is mostly greyed out. The serial number places it mid-range with the 59 carbine. At the time of its conversion to a sporting rifle, the barrel was changed to an extra heavy 30" octagon. Breech is stamped "Caliber .50" and the barrel has the "Old Reliable" ribbon and "Sharps Rifle Co. Bridgeport, Conn.". Barrel is basically a smooth brown patina and the stamps are very sharp. It has a standard Sharps rear sporting sight and a knife blade front. Serial number on underside of barrel matches tang. There were three .50 caliber cartridges available on the Sharps rifle, the big 50 2-1/2" straight case was introduced in July of 1872, as was the 2" case, and the 1-3/4" was introduced in 1869. It is not known whether this is a Sharps or Meacham conversion, but does not have the checkering usually associated with the Meacham conversions. The forearm was specially made and measures 1-7/8" wide. The barrel flats are 5/8". Rifle weighs approximately 16 lbs. These rifles were specifically made for hunting buffalo and basically were too heavy for any other purpose, and subsequently many were converted to more manageable weights after the buffalo were gone. With the prices of 1874 .50 caliber buffalo rifles bringing in excess of $50,000-$60,000, this rifle may present a historical bargain for some lucky owner. A wonderful and unique opportunity to own a true 1870's .50 caliber buffalo rifle in fine all original untouched condition. 8,000.00 - 12,000.00

**LOT - 634**

**634 - FINE BALLARD NO. 2 SPORTING RIFLE.**
Serial No. 30194. These rifles were made from 1876 to 1891. This .32 caliber rimfire sporting rifle features a 28" full octagon barrel, case colored frame, lever, buttplate, and varnished walnut stocks. It remains in spectacular condition. The barrel retains approximately 95% of the original factory blue with some freckling. Frame retains approximately 30-40% case colors with the balance greyed out. Fire blue still evident on screws. Patterned out case colors on buttplate with visible traces. Near mint varnished walnut stocks with no cracks. Near mint bore and perfect action. Front sight is hooded globe with long range tang rear sight and filler in rear barrel slot. It would be hard to find a nicer No. 2 Ballard in today's market. 1,000.00 - 2,000.00

**636 - REMINGTON-KEENE U.S.I.D. FRONTIER RIFLE.**
Serial No. W1018469. Manufactured from 1880 to 1883. Remington produced this bolt action rifle in caliber .45-70 and issued them to the Indian Police under orders of the U.S. Department of the Interior. Features include a 24" barrel, carbine butt, full magazine, sling swivels, with blued finish and walnut stock. The left side of the frame is stamped "U.S.I.D. 203", top of frame has the model and patent stamps. Has the folding leaf rear sight, carbine front barrel band, Henry Nettleton inspector stamps on both the barrel and frame and strong cartouche on left side of stock. The barrel and tube are a pleasing mix of smooth blue-brown patina, as is the frame. Walnut stocks are excellent, having never been refinished, with a perfect cartouche. There is a pencil etched on back of left side of frame (some identification mark). Action is perfect. Bore has strong rifling with some minor corrosion. This rifle remains in completely original untouched condition and is one of the finer examples this writer has seen, given it is a true documented, government inspected Indian firearm issued during the height of the Indian Wars. All of these saw hard use on the Western frontiers, and rarely surface in such fine original condition. 3,500.00 - 6,500.00

**645 - **MODEL 1907/15 FRENCH BERTHIER SNIPER RIFLE.**
Serial No. 42820. The standard of the French infantry of the first World War was the Berthier bolt action rifle. Standard features include a blued 31-1/2" barrel with upper hand guard, walnut stock, magazine fed, straight bolt, and chambered for the 8mm Lebel cartridge. This was the first cartridge to use smokeless powder, introduced in 1886. During the first World War, these rifles were converted to be used as sniper rifles with the addition of a Winchester A5 tube scope with the old style Winchester forward spring grasshopper mounts, with scope blocks mounted on front bridge of receiver and through the hand guard in front of the rear sight. This rifle is so equipped with an original Winchester A5 scope, original mounts. Scope blocks are case colored and are newer. The wood is very good with no cracks or chips, just usual war dings. It is marked on the right side of the stock. The left side of the frame is stamped "M16" with the manufacturer. Gun retains at least 90% of the original factory blue finish. Strong bore and perfect action. Bolt has been restamped 6644. Trigger guard is stamped 42820. Scope has perfect optics. Includes an old canvas sling that looks period. **651 - HUMUNGOUS MID-19TH CENTURY PUNT GUN.**
There was a time in the early 19th century when market hunting on the Chesapeake Bay was in its zenith, hunters would peruse the waters of the eastern shore in search of wild fowl, paddling the shallow waters in their flat boats. Large bore guns were often mounted to the front of these skiffs, and when a flock of ducks or geese appeared, they would fire large charges of lead into the center of the flock, thus bringing down multiple birds with a single charge. This is one such gun. It was custom made, probably somewhere in that vicinity. This gun features a 45-1/2" half round/half octagon barrel. Smooth bore measures 1-1/4". Stock is a half stock walnut with a pewter tip. The 3/4" ramrod appears to be homemade and has some slight warping. Barrel is a pleasing mix of blue and brown patina. No visible makers marks. The stock is in surprisingly good condition given its size and age. Buttstock has a hairline crack extending 6" from the buttplate. Works on a percussion system. Screw repair at toe. Single trigger, side lock percussion system. Bore is fairly clean. Still in working condition. Trigger guard is slightly protruding from stock and could be heated and fitted a little better. Single barrel wedge. An extremely interesting historical and high condition gun for one of these rare examples. Overall length of gun is 61-1/2" and is 3" wide at the wrist. 800.00 - 1,800.00

**655 - PRESENTATION MAYNARD CASED SPORTING RIFLE.**
Serial No. 3822. Offered is a simply marvelous French fitted cased multi-barrel set, Maynard First Model Sporting Rifle given in appreciation for service to then-secretary William G. Freeman. Maynard was well-known in the arms industry with respect for their contribution to the war between the states. At the secession of hostilities the company continued to make some of the finest quality single shot sporting rifles as well as target rifles ever manufactured. The innovative design of the Maynard allowed the user to have a single gun with multi-barrels for multiple purposes that could be easily and quickly changed for any situation. This is a spectacular cased set with all the original accessories, each partitioned in the fitted and specially made walnut casing. The rifle features the early style stock of fiery grain walnut with an oval presentation plaque of either silver or white gold in the right side that is engraved "Maynard Arms Co. to / Wm. G. Freeman". This rifle shows no signs of having ever been fired. The polish on the breech face, the bores, the muzzles and at breech is perfect. Frame retains literally all of the fiery case colors with the hammer, trigger, lever pin and screws retaining all of their original fire blue, even the pin that was used to attach the barrels retains virtually all of its finish, indicating the barrels were seldom, if ever, taken off or put on. The buttplate and patchbox, with the stamped patent date of 1856, still exhibits 90% of the high polish fire blue finish with some flaking at toe, and the left side shows flaking and a 2" area that has been lightly cleaned of some minor blemishes(virtually the only blemish on the entire outfit). The stock retains all of the original high gloss finish. All three barrels retain 99% original blue finish with all three levers retaining virtually all of their original case colors. The accessories are as new. The three barrels all have matching numbers. The .35 caliber barrel has the iron ring sight protector, while the other two barrels have a single and folding rear sight. While Colt and Winchester are well-known for having a multitude of presentation firearms given to important personages, this is the only such Maynard that this writer has ever seen. There are a few cased sets with multi-barrels and accessories but another does not exist that has been so meticulously outfitted and finely finished. This presentation set would be a prize gem in any single shot rifle collection or for some one who just enjoys owning the very best and the most rare of all classic firearms manufactured in the 19th century. Contents of the set include the following: 20" barrel in .35 Maynard, 20" barrel in .50 Maynard, 26" barrel with a .54 smooth bore, Maynard marked bullet mould, loading tools for each barrel, cleaning brushes for each barrel, patch cutter, rosewood handled turnscrew, two cartridge inserts complete with leather lanyards, powder flask which retains all of its original lacquer, four tin canisters with embossed brass caps, one contains nine rolls of Maynard tape primers, a tin of Eley percussion caps, and a cleaning kit. Truly breathtaking one of a kind Civil War era presentation Maynard case set worthy of the finest collection and never will another be seen like it. 20,000.00 - 25,000.00

**714 - **CUSTOM COLT DRAGOON .45 CONVERSION REVOLVER.**
Serial No. E62937. This Third Model standard Dragoon was custom converted and finished by a master craftsman. The project started off with a started 7-1/2" Third Model Dragoon, it was then converted to fire the standard .45 long Colt cartridge. A conversion ring and loading gate were hand machined and case colored to match the frame and hammer. The barrel was machined to accept an ejector rod and an adjustable blade front sight was installed. The gun was then beautifully polished and a fire blue finish was applied. The only marking on the entire gun, aside from the cylinder scene, are two proofs on the left side of frame and serial number under barrel which matches the frame. the action was hand-tuned. It features the varnished wood grips and brass grip frame. Even the cylinder rod was case colored. It is a masterful conversion and finished in the highest quality and is one of the finest conversions of the Dragoon one could ever hope for. The cost and man hours of the machining and finishing alone could only be produced in a labor of love. Gun remains in near mint condition, having been test fired for reliability and accuracy, of which, we are assured, is nothing short of phenomenal and the action is as smooth as silk. 800.00 - 1,500.00

**716 - S&W 1ST MODEL RUSSIAN SINGLE ACTION REVOLVER.**
Serial No. 10635. Often referred to as the Old, old Model Russian, or the Model No. 3 Russian First Model, in essence is identical to a Second Model American except for the Russian Model stamp on rib and it is chambered for the .44 S&W Russian cartridge instead of the .44 American. Manufactured from 1871 to 1874. Standard features include an 8" barrel, blued finish, walnut grips, single action, and top break. Gun appears all original. It is now basically an untouched brown patina. It appears as if all the screws on the left side are boogered, as well as the top strap. The grips appear original but are shy to the metal and are short at all four toes. The gun has never been refinished. Cylinder spins freely and does not lock up, although it does index. Strong bore with some minor abrasions. No wiggle in the lock up. With a little work, such as refitting the screws and some attention to the cylinder lock up, it would make a nice example of an early Russian. 1,500.00 - 2,500.00

**717 - CONFEDERATE CONTRABAND COLT 1861 NAVY REVOLVER.**
Serial No. 1070. This is one of two known documented Colt percussion revolvers from what is surmised as four orders of approximately 50 guns per order that were sent from Colt to C.B. Cotton in September of 1861. Cotton was the Collector of the Port of Louisville, Kentucky. Charles Cotton was then selling these guns that he purchased for $15 for upwards of $100 each to the Confederacy. This gun was shipped on September 2, 1861. On October 31st, General Sherman ordered a seizure of arms and goods in Cottons possession. Colts from these shipments are fairly well known in collector circles as the Contraband Colts. This particular Navy was sent to a very famous and influential Louisville resident, one George D. Prentice who was a well known author and the editor of the Louisville Daily Journal from 1830-1868 and a loyal Unionist. This revolver was shipped to him in care of Charles Cotton. It is ironic in that both of Prentice's sons fought for the Confederacy. One died on the field and the other ended up in a Union Prison Camp. In the 3" file of history and paper work that comes with this gun is a copy of a letter written to President Lincoln by Prentice pleading for the release of his son. The gun itself is a basic standard Colt Model 1861 Navy six shot .36 caliber percussion revolver that left the factory with a 7-1/2" barrel, blue finish with case colors and brass back strap with walnut grips. Serial numbered 1070. Shipped September 2, 1861. All matching numbers but wedge not numbered. All metal surfaces are clean smooth brown patina. Excellent original grips with "FP Nov. 3, 1912" carved into panel which is most likely a family member of Prentice. Cylinder has a fairly complete scene and indexes fine. Bore is strong. It is not often that a Colt has a story that actually mirrors the period of history in which it was manufactured and one that relates to a family and a specific event as the Civil War unfolded. This gun is the centerpiece of that time and place and a family torn apart by the War. The file of paperwork that comes with this historic revolver is a novel in itself. Includes Colt factory letter. 20,000.00 - 25,000.00

**718 - RARE COLT S.A.A. FLAT TOP NICKEL .32 TARGET.**

Serial No. 130413. The word “rare” is often used by catalogers as we simply run out of adjectives from time to time. But in this case, “rare” is the only word that describes this handgun. To begin, only nine flat top single action target Colt Armies were every manufactured in the .32-44 Smith & Wesson cartridge. Of these nine, we can only guess how many were factory nickel plated. This gun letters all the way. It was shipped on October 3rd, 1889 to Hibbard Spencer Bartlett & Co. in Chicago, Illinois with a 7-1/2” barrel, nickel plated (letter as such), rubber grips, and .32 caliber. The right trigger guard has the factory return star. Grip frame is stamped with the “N” for nickel. Factory stamps are strong and deep. The side of the barrel is stamped for 32-44 S&W CTG.”. The gun shows little to no use after the factory reapplied finish and retains virtually all of this high quality Colt nickel finish. It is a full nickel including the hammer and the trigger. It has a fire blue rear sight and a high partridge pin front. Sports a near mint set of eagle hard rubber grips (no Colt patent inside). Action works like a Swiss watch. Bore is excellent with strong rifling and a hint of frosting. Given the rarity (possibly only one of two nickel) and the current condition of this revolver and the Colt workmanship of both fit and finish, it is simply breath-taking. There are no gaps at seams. No washing out of letters or numbers. The chance to own one of the extreme rarities in the Colt collecting field. This is one of, if not the, rarest Colt Single Action Armies extant. 15,000.00 - 20,000.00

**719 - **NEAR NEW COLT 2ND GEN. NEW FRONTIER REVOLVER.**
Serial No. 5072. Offered is a 5-1/2" New Frontier target revolver chambered for the .357 magnum cartridge, manufactured in 1965 with a total production of 792 revolvers in this caliber and finish. The New Frontier features factory walnut grips with silver medallions, flat top frame, and adjustable rear sight. This rare New Frontier target revolver is a six shot single action chambered for the then new and powerful .357 cartridge. As to condition, the gun displays in virtually as new condition throughout. There is no sign of any cylinder burn and the lightest of drag lines is only perceptible through the use of a lighted glass. The bore and action are likewise as new. Grips are perfect in richly grained walnut. Case colors are brilliant. Screws are perfect with all of their high polish finish. About as nice as you can expect to find one of these sans its original box. Given the rarity and quality of the flat top New Frontier target revolvers, they present and extraordinary opportunity for both the collector and investor.

**720 - CASED COLT 3RD GEN. DRAGOON REVOLVER.**
Serial No. 36122. These Third Issue Signature Series Navy revolvers are not reproductions, rather they are a Colt continuum as reintroduced. This fine revolver was manufactured from 1996 to 2002. It is a standard Third Model Dragoon with a 7-1/2" barrel, single action, .44 caliber percussion, with walnut grips. The barrel and cylinder retain all of the beautiful high polish Colt blue with Texas Ranger scene and no drag line evident. Loading lever, hammer, and frame retains all the brilliant Colt case colors. Fire blue screws have never been turned. Brass trigger guard is perfect, as is the blued backstrap. The gun rests in a wooden display case, partitioned with all accessories, including an original Eley London cap tin. The walnut grip has one dent on left side and pistol is cut for shoulder stock. These re-issues are some of the nicest black powder guns ever manufactured by Colt. 500.00 - 900.00

**721 - CASED COLT HERITAGE WALKER DRAGOON REVOLVER.**
Serial No. 1066. In 1980 Colt reintroduced a special edition of the famous Walker Dragoon in which 1,000 were manufactured. They were specially engraved and inlaid on the left side with "The Colt Heritage Commemorative". Left side of frame is stamped "C Company No. 1066". Right side of barrel has engraved and gold inlaid images of Samuel Walker and Samuel Colt and is stamped "U.S. 1847". Both sides of the grips bear the inspector cartouches. The bottom of the barrel lug, trigger guard, and backstrap are all stamped "C Company 1066". The cylinder features the roll engraving of the Texas Ranger battle scene. Standard features include a 9" barrel; single action; six shot; chambered for the .44 caliber percussion; with blued barrel, cylinder, and backstrap; case colored frame, hammer, and loading lever; with square back brass trigger guard. The gun is new, mint, unfired, with no drag line. It is housed in the beautiful Colt Heritage walnut display case with green velvet lining, French fitted, with walnut accessory box. Comes with a tray that holds the hard cover Colt Heritage book, signed by R.L. Wilson and numbered to the gun. One of the most handsome percussion Colts ever manufactured. 2,000.00 - 3,000.00

**724 - ENGRAVED S&W 1ST MOD. NEW MOD NAVY NO. 3 REVOLVER**
Serial No. 13369. Gun features a 6" barrel, blued finish, six shot, double action, .44 caliber, and walnut grips. This example has New York style period engraving and was presented to a New York City firefighter in the early 20th century. The scroll engraving covers the rear sides of the barrel and side of the frame with wedges of scrollwork on the cylinder between the flutes and behind the hammer. A leaf is engraved on the trigger guard and dots are features around the hammer. The left side of frame is inscribed "N.Y.F.D./H.&L.Co. No. 130" and the backstrap is inscribed "Lt. C.F. Douth". Charles F. Douth was the winner of the James Gordon Bennet award in 1903. According to the website NYC.gov, "The James Gordon Bennet Medal was established in 1869 and, for years, it was the sole decoration awarded for valor in the Fire Department of the City of New York. As a result of its seniority among medals, it is awarded annually for the most outstanding act of heroism after the consideration and deliberate judgement of the members of the Board of Merit of the NYC Fire Department.". Douth is listed as a recipient of the award on the NYC.gov website. The top of the barrel rib is marked with the two line address and patent dates and matching serial number is marked on the butt, rear cylinder face, barrel, and barrel latch. Fitted with diamond checkered grips with the right grip panel numbered to the gun. As to condition it is very good as professionally embellished. Retains traces of blue finish in the protected areas with a smooth brown patina on balance. 2,500.00 - 4,000.00

LOT - 725

**725 - S&W 2ND MODEL AMERICAN REVOLVER.**
Serial No. 21763. Offered is a Smith & Wesson American Second Model revolver manufactured from 1872 to 1874. Fairly standard with an 8" barrel, six shot, single action, chambered for the .44 American cartridge. This revolver is finished in factory nickel, of which approximately 20% remains, while the balance has turned a dark grey patina with some freckling on cylinder and frame. The grips are a pair of original vintage ivory that fit fairly well, albeit they have shrunk a bit and show some of the usual age cracking. No traces of color on hammer or trigger guard. Strong factory stamps on rib. Indexes properly. Very good bore with some minor roughness. Latch number does not match. Cylinder number is barely visible. Front of the muzzle and front sight are completely rounded from holster wear. (Great look early cowboy gun).

**727 - BEAUTIFUL CASED SET MORTIMER DUELING PISTOLS.**
18.5" x 8" x 3" Offered is a fine original double cased set of H.W. Mortimer matching duelers in the original case with all accessories. Mortimer, located on Fleet Street in London, is noted amongst collectors for the fine quality of his handguns, and this cased set is no exception. These pistols are identical in configuration as follows: 9-1/4" flared Damascus octagon barrels, percussion ignition, bores measure .60, smooth bores with no rifling, original cleaning rods, case colored actions are marked H.W. Mortimer, hammer is engraved and is also case colored, both have safeties, carved and checkered bag style handles, trigger guard has the brass plaque, the triggers are adjustable, trigger guard plate is engraved, and original cleaning rods have ebony tips. Barrels are browned. Bores are near mint. Condition of both guns are nearly identical and show literally no signs of having ever been used or fired, with perfect case colors, beautiful stocks with no cracks or chips. Gold band at breach. Comes with an original dealer label box with assorted tools and an original leather covered flask. A beautiful top of the line mid 19th century set of London duelers that would be hard to be improved upon both in quality and condition. This is the type of set that would have been used to settle arguments in the genteel Southern era aristocracy prior to the war between the states. Exterior box does show wear. 5,000.00 - 8,000.00

**743 - COLT DRAGOON S.A. PERCUSSION PISTOL (COPY).**
Serial No. 18579. Offered is a probable European Brevette style copy of a Colt Third Model Dragoon. Standard features include and 8" barrel, .44 caliber, six shot, single action, blued finish, with case colored frame, brass grip straps, and walnut grips. The brass trigger guard and back strap have been cleaned at one time. Walnut grips are very good but do not fit flush to frame. No visible cylinder scene left. A rear sight has been cut into the top of the barrel, cutting through the lettering. The serial numbers on the bottom of the barrel and frame are partially obscured. Wedge number matches the butt, as does loading lever. Two left frame screws are extremely damaged. Does not index properly. All metal finishes range from a light patina to some darker wiped-on cold blue with pitting under surface. All the original nipples. Face of cylinder shows several areas of battering. No Colt stamp on frame. These type of guns were manufactured during the 1850's by a myriad of companies in Europe, most of which were destined for the South during the Civil War. This revolver has seen much use and is a good representative piece for this genre. 1,000.00 - 2,000.00

**752 - **STEYR ROTH- BUDAPEST M1907 SEMI-AUTO PISTOL.**
Serial No. 26036. The pistol was developed by the Czech designer Karel Krnka, working for an ammunition company of Georg Roth, from an earlier design of Roth-Theodorovic pistol. After development and tests of several prototypes, the final version of the Roth-Krnka won a contest for an Army pistol in 1906, and was adapted as a standard gun of Austro-Hungarian Army as: Repetierpistole M.7. (self-loading pistol M1907). Since Roth had no weapon production capabilities, the government bought all the rights and ordered production in the Österreichische Waffenfabriksgesellschaft (OEWG) in Steyr and FEG in Budapest. From 1908 to 1914, approximately 99,000 weapons were manufactured (the Army received 59,334 from Steyr and 38,213 from FEG, plus several hundred were sold on the civilian market). Despite common name for the pistol Roth-Steyr, Steyr works did not participate in its design, apart from minor improvements. Standard features include 5-1/2" barrel, semi-automatic, ten round, blued finish, serrated walnut grips, and chambered for the 8mm cartridge. Gun retains approximately 90% of the original factory blue finish with minor high edge wear. Grips are near mint. Perfect bore and fine action. High edge wear around trigger guard and a few small rubs. Overall one of the nicer examples of this pistol you will find. 500.00 - 1,200.00

**763 - KANSAS FAMILY DOCUMENTED S&W 1ST MOD AM. REVOLVER**

Serial No. 3667. You often hear people comment "if this gun could talk", but rarely does such an event actually occur in which the history of a firearm can be traced back to its early roots and/or family. While the original owner of this revolver, Charles King Snyder, might not fall from the lips as often as Wild Bill Hicock or Wyatt Earp, it was men like Snyder and thousands of others that tamed the West that was to become America's future. This early First Model American, scarce enough in this condition in its own rite, is accompanied by a myriad of items along with a hand written family letter describing the exploits of Mr. Snyder. Examining the revolver as a first point of reference, it is as follows: it is a standard early First Model Smith & Wesson American (no oil hole) chambered for the .44 American cartridge with an 8" barrel, single action, six shot, nickel plated, and walnut grips. The barrel retains approximately 85% of the original factory nickel with the balance a pleasing brown smooth patina. The frame retains approximately 90% of the original nickel finish with some minor freckling. Cylinder is basically brown patina with flashes of original nickel. This is a full nickel gun in that the hammer, trigger, and trigger guard are also nickel. The factory stamps on the rib are as bold as the day they were emblazoned into the metal. The original front sight blade has been reshaped. Grips are excellent. These First Models were made between 1870 and 1872. Bore is strong. Cylinder indexes perfectly and locks up tight. Other items that accompany this grouping include a vintage Victorian shadowbox; in this shadow box is an 1858 dated piece of paper that describes Snyder's return from the California Gold Rush on March 8th, 1851. There is a subpoena dated March 19th, 1891 from the state of Kansas requesting the appearance of Mr. Snyder as Justice of the Peace of Wild Horse, Kansas to testify. There is also an original tin type of Snyder, along with a pair of period handcuffs and his U.S. Marshal badge. A family album of the period is included containing dozens of family members. A binder is included with various receipts, mostly dealing with business matters. The hand written family letter lists certain facts about Snyder's life such as his leaving for the Gold Rush in 1849, settling in Kansas as sheriff or Marshal of Wild Horse, and one of his son's death by drowning on a cattle drive. This revolver is a wonderful and historic retrospective into the life of an early Western adventurer, and would make a wonderful display with stories still to be found. 8,000.00 - 12,000.00

**764 - **SPECIAL ORDER COLT PRE-WAR S.A.A. REVOLVER.**

Serial No. 352741. The factory letter states that this gun was shipped to the state of Pennsylvania care of Troop C state police in Reading, Pennsylvania on January 8th, 1929 in a shipment of one gun. It was shipped as a .45 long Colt caliber with a 5-1/2" barrel, blued finished (case colored frame and hammer), with Colt rubber logo grips. One of the more interesting aspects of this revolver is that under special features is listed: furnished with a 3-1/2 lb. trigger pull. This writer has neither seen nor heard of another special order single action having been shipped with such a feature. The revolver remains in beautiful 95% plus condition overall. Finish is all original, aside from a drag line and storage marks around the circumference of the cylinder, and some high edge wear on trigger guard, with a hint of thinning on back strap the gun retains virtually all of the original factory finish with brilliant case colors on hammer and frame. Screws retain virtually all of the original blue. Action and bore are perfect. Grips are near mint and original to gun. A spectacular special order Colt in never seen condition. High condition. 6,000.00 - 8,000.00

LOT - 770

**770 - CASED HAWKIN STYLE HALF STOCK TARGET RIFLE.**
NSV Beautiful mid-19th century custom built single shot percussion target rifle in caliber .40. Features include a 31-1/4" full octagon barrel finished in the white, sporting rear sight, fire blued detachable long range sight. Top of the barrel is stamped with the custom gunsmith "W. Packard, Elyria". There was a W. Packard who had a gun shop in the public square from 1854 to 1862. He was born in 1802 in Massachusetts, moved to New York, and finally Ohio. Lock is also stamped "W. Packard" which is unusual for this time as most custom gunsmiths purchased their locks. Other features include a beautiful walnut half stock that remains in near mint condition with no cracks or chips of any kind. Bottom of stock is also stamped "W.P.". It has a semi-fancy brass trigger guard. Has a full wrap-around brass buttplate. Traces of finish on the side plate. Long range sight retains virtually all of the original high polish fire blue finish. Has a 1" false muzzle. Strong bore with light frosting. Perfect action. Original nipple. Comes in a vintage period custom French fitted carry case in which rests the brass tipped ramrod, some original linen, brass bullet mold, iron bullet mold, and an unusual wooden accessory. A wonderful example of an early custom gunsmith high quality rifle from the Ohio area. 1,500.00 - 3,000.00

Features include .50 caliber rimfire cartridge, seven shot magazine tube in butt, .22 round barrel, iron mountings, sling swivel on buttstock. All metal is a smooth pleasing mix of dark blue-brown patina with a couple of dents on left side of frame. Original military sights. Stock has a 4" repaired crack on left side and a 3/4" crack at top of tang. Wood has been refinished and is shy to metal. Strong bore could use some cleaning. Fine action. Manufactured in Meriden, Kentucky. 600.00 - 1,200.00

LOT - 772

**772 - MERRIMACK ARMS DELUXE BALLARD SPORTING RIFLE.**
Serial No. 20102. Merrimack Arms of Newberry Port, Massachusetts manufactured the Ballard from 1867 to 1869. A total of 2,200 rifles were produced. This sporting rifle features a 24" full octagon barrel and is chambered for the .38 rimfire cartridge. Has matching serial numbers. Front sight is a folding globe, and rear has a folding rear sporting sight and a tang long range sight dovetailed in receiver. Barrel retains approximately 90% original blue with some freckling and some minor pitting on top flat. The frame retains approximately 40-50% original case colors, some bright. Original walnut varnished stocks are excellent with almost all of the original varnish and just one minor 3/4" tight hairline crack at wrist. Case colors on buttplate have darkened. Beautiful bore and perfect action. Rarely do you see these scarce sporting rifles in such fine condition. 1,500.00 - 2,500.00

**LOT - 773**

**773 - **WINCHESTER MODEL 55 LEVER ACTION RIFLE.**
Serial No. 1084799. This is one of the myriad of rifles that Winchester put together using Model 1894 frames with Model 55 barrels. The frame places the date of manufacture in 1932, which coinsides with mid-production of the Model 55. It has a Model 55 barrel that is chambered for the scarce .25-35 cartridge. Features a 24" round barrel, buttom magazine, solid frame, sporting sights, walnut stocks, with fluted comb and a checkered steel shotgun butt. The wood is very good with no cracks or chips, proud to metal with usual hunting dings. The blued receiver finish has flaked and is a mix of blue, brown and gun metal grey. Something has got on the metal of the barrel and the blue is splotchy with gun metal underneath. Action is fine. Visible rifling but worn. Would be a very good candidate for an expert restoration. Shootable as is. 400.00 - 800.00

**LOT - 774**

**774 - L. POMEROY U.S. MUSKET.**
This U.S. contract musket is in stellar condition. Features a 42" barrel in .69 caliber smooth bore percussion ignition. Lockplate is dated 1843. It has the converted lock from flintlock. The walnut stock has two perfect cartouches on left side. Tang and lock are both dated 1843. Top of barrel is stamped "U.S.", "J.C.B." inspector, with the proof "P". Extremely clean bore and perfect lock. Wood has no cracks or chips and has never been refinished, albeit the buttplate may have been cleaned a tad. "U.S." stamped on buttplate. Extremely clean example of this early contract converted U.S. musket. 2,500.00 - 4,500.00

**788 - **SPRINGFIELD M1A NATIONAL MATCH DEVINE TEXAS.**
Serial No. 2470. This is a Springfield Armory M1A in .308 Winchester caliber. It is a Semi-auto rifle with a removable magazine. This weapon is one of the original Springfield Armory weapons known as THE DEVINE and was made while Springfield Armory was in Devine Texas (stamped under barrel). They were made with GI military-spec parts. This receiver is No. 002470. Front sight .062 and reamed flash hider with bayonet lug, NM hooded rear sight. NM rear sight is adjustable in ½ MOA increments through finer threads in the sight base and windage knob, and through half-turn rotation of a hooded eccentric rear sight aperture, which makes it one of the most accurate and fine-tuned sights ever made for the very few National Match rifles that were ordered by the Government. Bolt is stamped "SACA1. Gun sports a 22" barrel, parkerized finish, walnut stock, composite hand guard, and OD sling. Metal retains virtually all of the original finish. Wood is excellent. Fine bore and action. These early Devine M1s are getting extremely hard to come by. 2,000.00 - 4,000.00

**792 - ** U.S. INLAND M1 PARATROOPER TYPE CARBINE.**
Serial No. 91129. According to the M1 Carbine book by J.C. Harrison page 163 "No original M1 had the bayonet lug". Harrison writes, these were produced by Inland only from 1942 to 1944. This carbine has an 18" Inland barrel dated 11/42, which would have been the earliest date of manufacture for a Paratrooper Model. This post-WWII rebuilt and reparkerized. example does have the bayonet lug. Pistol grip has the proof "P", left side of stock has "RIA" and "EB" in a square (cartouche). According to the book on page 164, the Inland M1 with the bayonet lug is a post World War II field replacement stock on an arsenal upgrade carbine. This would also explain the double inspectors and the reparkeized finish with light barrel stamp. The folding stock is all original per the book and is a highwood stock cut down during rebuild. Buttplate has the part number cast in the metal. Nut plate is correct. All other aspects of the rig are original manufacture. Excellent bore and action. A fine example of a post-World War II field replacement field trooper carbine. Carsenal re - build. High wood stock converted to low wood during re - build. 800.00 - 1,500.00

**796 - **FINE STEVENS FAVORITE FALLING BLOCK RIFLE.**
Serial No. G234. This standard rifle includes a 23-7/8" full octagon barrel chambered for the .25 Stevens rimfire cartridge. Barrel retains approximately 85-90% original factory blue with thinning on edges and muzzle. The frame is a clean pleasing mix of brown patina with some blue. Wooden stocks are excellent with no cracks or chips. Gun has a Stevens buttplate and wood fits proud to metal, but may have been freshened at one time. Strong bore, perfect action. Sporting sights. Takedown. 200.00 - 400.00

**796A - **BOXED WIN. PRE-64 SUPER GRADE .357 H&H RIFLE.**

Serial No. 104426. Offered is another one of the most desirable of all pre-64 Model 70's. It is a factory Super Grade rifle manufactured in 1949 in the popular .375 Holland & Holland cartridge. According to the book (The Rifleman's Rifle) by Roger Rule, only 2.41% of total production were manufactured in this chamber. Given the high retail price of this gun at the time, the number of Super Grade in this caliber would be infinitely smaller still. Standard features include a 25" heavy round barrel, bolt action, blued finish, deluxe checkered walnut stocks, factory red rubber recoil pad, factory sling eyes, and pistol grip cap. The gun is in beautiful all original condition as it left the factory. It has the sporting front and fold down rear sight. The metal surfaces retain virtually all of the factory blue finish, with a hint of wear on the trigger guard. Checkering is sharp. Wood is near mint with no cracks or chips, just a couple of minor impressions on left side of stock. Bore and action are perfect. Rifle is housed in a period correct reproduction box with a complete set of reprinted paperwork, original Winchester marked sling, and swivels. One would be hard pressed to fine a finer condition Super Grade in this chambering. A true post-war classic capable of taking down the world's most dangerous game. An African favorite. 6,500.00 - 9,500.00

**818 - CASED HALF STOCK 2 BARREL SET.**

NSV Offered is an exquisite one of a kind custom rifle/shotgun cased set. This example was manufactured in the mid-19th century by noted Toronto gunsmith W.G. Rawbone. Set was manufactured in the mid-19th century, uses the percussion system, and features a 12 bore shotgun barrel and a .44 caliber rifle barrel. The beautiful half stock features highly figured piano finish stock with an engraved trapdoor on right side. Piece of paper inside is dated November 27th, 1892 and gives loading information. Has a finely engraved and high polish blue trigger guard that retains 40% of the original finish. The engraved teardrop side lock plate is finely engraved and stamped "W.G. Rawbone". The screws and hammer are also engraved. Wrist and fore stock are finely checkered. Escutcheon is engraved. Has an ebony fore end tip. Shotgun barrel measures 35", is turned from octagon to round, has a Damascus brown finish, is proofed on the other side, top of flat is stamped "W.G. Rawbone Toronto", breach is engraved, original nipple, with a strong clean bore, and original brass tipped cleaning rod. The rifle barrel measures 32", metal is basically a smooth blue-brown patina, has a long range folding sight, engraved at the breech, and is also stamped "W.G. Rawbone Toronto" with a strong rifled bore with some minor abrasions. It too has the original brass tipped ramrod. The included case is lined in purple velvet and comes with a three-piece rifle cleaning rod, three-piece shotgun cleaning rod, a shotgun charger flask, a brass bullet mold stamped "W.G. Rawbone", several cleaning jags, glass oil bottle with a nickel cap stamped "C&JW. Hawksle, and a barrel wrench stamped "15". **LOT - 832**

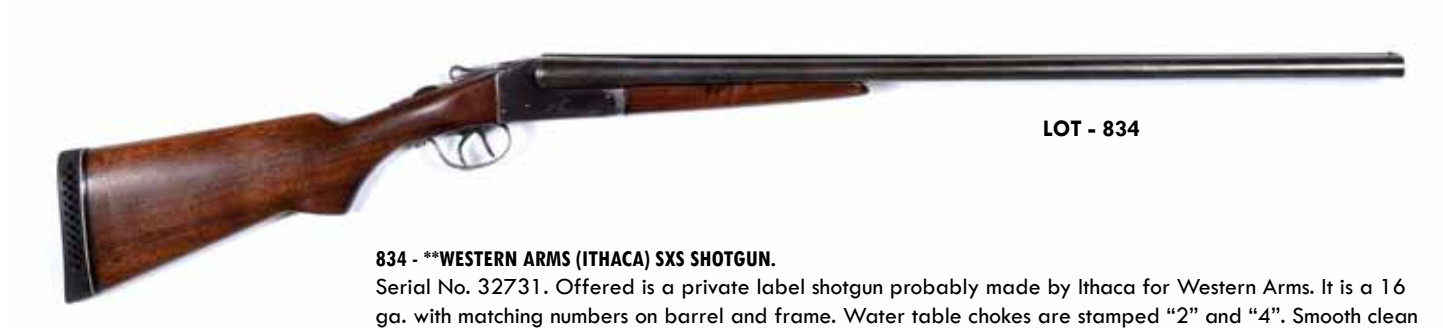
**832 - **SCARCE WIN. MOD. 12 PUMP - FACTORY CUTTS CHOKE.**
Serial No. 1722207. When Cutts invented the variable choke attachment, it was considered a modern marvel in that it had allowed a hunter to use one gun for all his shotgunning needs. Winchester was quick to recognize this innovation and began to install the new Cutts compensator on many of their shotguns prior to leaving the factory. It is rare to find a factory installed example as most were done on the after-market. The lack of any choke marking on the left side of the barrel and the original duck billed ventilated rib with the offset PW indicates an original example. Standard features include 12 ga., 2-3/4" chamber, and 26-1/2" barrel. 14" LOP to a solid red pad. Stocks are a beautiful burl walnut with incredible grain and extra fancy fleur-de-lis checkering with a Winchester grip cap. Finish includes gold plated trigger with blued finish and polished bolt. Gun was manufactured in 1959. There is a little forward slide tube wear and a minute hint of wear on the left side of the frame. Otherwise the gun remains in near new condition with a mirror bore and action. A beautiful factory pre-64 "one gun does it all" shotgun. 1,200.00 - 2,400.00

**LOT - 833**

**833 - **CUSTOM UPGRADE GOLD INLAY WIN. MOD 12 SHOTGUN.**

Standard features include 12 gauge, 2-3/4" chamber full choke, blued finish, 30" barrel with factory duck-bill ventilated rib (missing front bead), full choked, safety is gold plated, jeweled bolt. Upgraded to a No. 12-5 pattern with beautiful scroll and punch-dot background. The right side of the frame has four solid gold mallard inlays, while the left side has two gold inlaid setters and a pheasant. The engraver has signed his work "L.C." on bottom of frame. Stocks features a Monte Carlo pistol grip done in semi-gloss with the most beautiful dark burl AAA clarowalnut with 18 lines-per-inch hand checkering and a plain steel grip cap. LOP is 14" to black Pachmayr pad. Drop at comb 1-1/2". Drop at heel 1-7/8". Gun retains virtually all of the expertly applied finish with little to no wear to the metal. All factory stamps are sharp as new. Wood finish and checkering are superb. Bore is bright. Action is perfect. An extremely handsome pigeon grade trap. 2,000.00 - 4,000.00



**LOT - 834**
